FSA is announcing plans to extend the information collection approval of a currently approved information collection that supports WHIP and the QLA Program. FSA provides payments to eligible producers who suffered eligible crop, tree, bush, and vine losses resulting from a qualifying disaster event that occurred in the 2017 calendar year under WHIP, which was authorized

by Bipartisan Budget Act of 2018 (BBA) (Pub. L. 115–123).

FSA also administers the QLA Program to provide financial assistance to eligible producers who experienced a crop quality loss due to a qualifying disaster event in calendar years 2018 or 2019, which was authorized by the Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Pub. L. 116–20), as amended by the Further Consolidated Appropriations Act, 2020 (Pub. L. 116–94).

Abstract: This information collection is required to support the regulation in 7 CFR part 760, subpart O, for 2017 WHIP requirements for eligible producers who suffered eligible crop, tree, bush, and vine losses resulting from a qualifying disaster event. The information collection is necessary to evaluate the application and other required paperwork for determining the producer's eligibility and the producer's payment calculations. FSA also granted funds to Florida to provide the payments to eligible citrus crop growers; the Florida grantee used the same FSA application for the growers. FSA also administers the QLA Program to provide financial assistance to crop producers who experienced a crop quality loss due to a qualifying disaster event in calendar years 2018 or 2019. The application period for WHIP and the QLA Program has ended; however, the collection is continuing for additional information that may be needed to verify compliance with program eligibility requirements, such as the requirement to purchase crop insurance or Noninsured Crop Disaster Assistance Program coverage for the next two available crop years.
