40 CFR Part 272

[EPA-R06-RCRA-2021-0330; FRL-9522-01-R6]

Texas: Incorporation by Reference of State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule codifies in the regulations the prior approval of Texas’ hazardous waste management program and incorporates by reference authorized provisions of the State’s statutes and regulations. The Environmental Protection Agency (EPA) uses the regulations entitled “Approved State Hazardous Waste Management Programs” to provide notice of the authorization status of State programs and to incorporate by reference those provisions of the State statutes and regulations that are authorized and that EPA will enforce under the Solid Waste Disposal Act, commonly referred to as the Resource Conservation and

Recovery Act (RCRA). The EPA previously provided notices and opportunity for comments on the Agency’s decisions to authorize the State of Texas program and the EPA is not now reopening the decisions, nor requesting comments, on the Texas authorizations as previously published in the **Federal Register** documents specified in Section I.C of this final rule document.

DATES: This regulation is effective on December 23, 2024. The Director of the Federal Register approves this incorporation by reference as of December 23, 2024, in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R06-RCRA-2021-0330. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. SUPPLEMENTARY INFORMATION:

I. Incorporation by Reference

A. What is codification?

Codification is the process of placing a State’s statutes and regulations that comprise the State’s authorized hazardous waste management program into the Code of Federal Regulations (CFR). Section 3006(b) of RCRA, as amended, allows the EPA to authorize State hazardous waste management programs to operate in lieu of the Federal hazardous waste management regulatory program. The EPA codifies its authorization of State programs in 40

CFR part 272 and incorporates by reference State statutes and regulations that the EPA will enforce under sections 3007 and 3008 of RCRA and any other applicable statutory provisions.

The incorporation by reference of State authorized programs in the CFR should substantially enhance the public's ability to discern the current status of the authorized State program and State requirements that can be federally enforced. This effort provides clear notice to the public of the scope of the authorized program in each State.

B. Why wasn't there a proposed rule before this rule?

The EPA is publishing this rule to codify Texas' authorized hazardous waste management program without a prior proposal because we believe this action is not controversial. The reason being that, in accordance with section 3006(b) of RCRA, EPA has already evaluated the State's regulatory and statutory requirements and has determined that the State's program meets the statutory and regulatory requirements established by RCRA. The EPA previously provided notices and opportunity for comments on the Agency's decisions to authorize the Texas program. The EPA is not now reopening the decisions, nor requesting new comments, on the Texas authorizations as previously published in the **Federal Register** documents specified in Section I.C of this final rule document. The previous authorizations form the basis for the codification addressed in this final rule.

C. What is the history of the authorization and codification of Texas' hazardous waste management program?

The State of Texas initially received final authorization on December 26, 1984 (49 FR 48300), to implement its Base Hazardous Waste Management Program. This authorization was clarified in a notice published March 26, 1985 (50 FR 11858). Texas received authorization for revisions to its program, effective October 4, 1985 (51 FR 3952), February 17, 1987 (51 FR 45320), March 15, 1990 (55 FR 7318), July 23, 1990 (55 FR 21383), October 21, 1991 (56 FR 41626), December 4, 1992 (57 FR 45719), June 27, 1994 (59 FR 16987), June 27, 1994 (59 FR 17273), November 26, 1997 (62 FR 47947), December 3, 1997 (62 FR 49163), October 18, 1999 (64 FR 44836), November 15, 1999 (64 FR 49673), September 11, 2000 (65 FR 43246), June 14, 2005 (70 FR 34371), December 29, 2008, (73 FR 64252), and July 13, 2009 (74 FR 22469); March 7, 2011 (76 FR 12283), effective May 6, 2011; March 6,

2012 (77 FR 13200), effective May 7, 2012; November 30, 2012 (77 FR 71344), effective January 29, 2013; September 3, 2014 (79 FR 52220), effective November 3, 2014; October 21, 2015 (80 FR 63691), effective December 21, 2015; December 28, 2015 (80 FR 80672), effective February 26, 2016; April 10, 2020 (85 FR 20187), effective April 10, 2020; and March 5, 2021 (86 FR 12834), effective March 5, 2021.

The EPA incorporated by reference Texas' then authorized hazardous waste program effective December 3, 1997 (62 FR 49163), November 15, 1999 (64 FR 49673), December 29, 2008 (73 FR 64252), May 6, 2011 (76 FR 12283), January 29, 2013 (77 FR 71344), and February 26, 2016 (80 FR 80672), and April 10, 2020 (85 FR 20187).

In this document, EPA is revising subpart SS of 40 CFR part 272 to include the recent authorization revision actions effective March 5, 2021 (86 FR 12834).

D. What codification decisions have we made in this rule?

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference of the authorized hazardous waste management program of the State of Texas. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Texas rules described in the amendments to 40 CFR part 272 set forth in section 272.2201. The EPA has made, and will continue to make, these documents available electronically through <https://www.regulations.gov> and in hard copy at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

The purpose of this document is to codify Texas' base hazardous waste management program and the State's revisions to that program. This document incorporates by reference Texas' hazardous waste statutes and regulations and clarifies which of these provisions are included in the authorized and federally enforceable program. By codifying Texas' authorized program and by amending the Code of Federal Regulations, the public will be more easily able to discern the status of federally approved requirements of the Texas hazardous waste management program.

The EPA is incorporating by reference the Texas authorized hazardous waste program in subpart SS of 40 CFR part 272. Section 272.2201(c)(1) incorporates by reference Texas' authorized hazardous waste statutes and regulations. Section 272.2201 also references material which is not being

incorporated by reference, but which EPA considered in determining the adequacy of Texas' program. Section 272.2201(c)(2) references sections of the Texas statutes which provide the legal basis for the State's implementation of the hazardous waste management program. In addition, §§ 272.2201(c)(5), (6), and (7) reference the Memorandum of Agreement, the Attorney General's Statements, and the Program Description, respectively. These documents are evaluated as part of the hazardous waste management program in accordance with subtitle C of RCRA but are not part of the material to be incorporated by reference.

State provisions that are "broader in scope" than the Federal program are not incorporated by reference in 40 CFR part 272. For reference and clarity, the EPA lists in 40 CFR 272.2201(c)(3) the Texas statutory and regulatory provisions that are "broader in scope" than the Federal program, and which are not part of the authorized program being incorporated by reference. While "broader in scope" provisions are not part of the authorized program and cannot be enforced by the EPA, the State may enforce such provisions under State law. At 40 CFR 272.2201(c)(4), EPA lists amendments to Texas regulations and Federal rules which are not part of the Texas authorized program.

E. What is the effect of Texas' codification on enforcement?

The EPA retains its authority under statutory provisions, including but not limited to, RCRA sections 3007, 3008, 3013, and 7003, and other applicable statutory and regulatory provisions to undertake inspections and enforcement actions and to issue orders in authorized States. With respect to these actions, the EPA will rely on Federal sanctions, Federal inspection authorities, and Federal procedures rather than any authorized State analogues to these provisions. Therefore, the EPA is not incorporating by reference such particular, approved Texas procedural and enforcement authorities. Section 272.2201(c)(2) of 40 CFR lists the statutory and regulatory provisions which provide the legal basis for the State's implementation of the hazardous waste management program, as well as those procedural and enforcement authorities that are part of the State's approved program, but these are not incorporated by reference.

F. What State provisions are not part of the codification?

The public needs to be aware that some provisions of Texas' hazardous

waste management program are not part of the federally authorized State program. These non-authorized provisions include:

(1) Provisions that are not part of the RCRA subtitle C program because they are “broader in scope” than RCRA subtitle C (see 40 CFR 271.1(i));

(2) Federal rules for which Texas is not authorized, but which have been incorporated into the State regulations because of the way the State adopted Federal regulations by reference;

(3) Unauthorized amendments to authorized State provisions;

(4) New unauthorized State requirements;

(5) Federal rules for which Texas is authorized but which were vacated by the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Cir. No. 98–1379 and 98–1379; June 27, 2014); and

(6) Federal rules which Texas adopted but which were vacated by the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Cir. No. 09–1038, rulings dated July 7, 2017 and March 6, 2018).

State provisions that are “broader in scope” than the Federal program are not part of the RCRA authorized program and the EPA will not enforce them.

Therefore, they are not incorporated by reference in 40 CFR part 272. For reference and clarity, 40 CFR 272.2201(c)(3) lists the Texas regulatory provisions which are “broader in scope” than the Federal program and which are not part of the authorized program being incorporated by reference. “Broader in scope” provisions cannot be enforced by the EPA; the State, however, may enforce such provisions under State law.

Additionally, Texas’ hazardous waste regulations include amendments which have not been authorized by the EPA. Since the EPA cannot enforce a State’s requirements which have not been reviewed and authorized in accordance with RCRA section 3006 and 40 CFR part 271, it is important to be precise in delineating the scope of a State’s authorized hazardous waste program. Regulatory provisions that have not been authorized by the EPA include amendments to previously authorized State regulations as well as certain Federal rules.

Texas has adopted but is not authorized for the following Federal rules published in the **Federal Register** on December 31, 1985 (50 FR 53315); January 21, 1986 (51 FR 2702); September 22, 1986 (51 FR 33612); October 5, 1990 (55 FR 40834); February 1, 1991 (56 FR 3978); February 13, 1991 (56 FR 5910); April 2, 1991 (56 FR 13406); May 1, 1991 (56 FR 19951); May

13, 1991 (56 FR 21955); September 5, 1991 (56 FR 43874); September 19, 1994 (59 FR 47980); April 8, 1996 (61 FR 15660); April 12, 1996 (61 FR 16290); April 30, 1996 (61 FR 19117); June 28, 1996 (61 FR 33680); July 10, 1996 (61 FR 36419); August 26, 1996 (61 FR 43924); February 19, 1997 (62 FR 7502); June 8, 2000 (65 FR 36365); May 14, 2001 (66 FR 24270); July 3, 2001 (66 FR 35087); July 24, 2002 (67 FR 48393); October 7, 2002 (67 FR 62618); April 26, 2004 (69 FR 22601); June 16, 2005 (70 FR 35032); January 8, 2010 (75 FR 1236); December 17, 2010 (75 FR 78918); and June 26, 2014 (79 FR 36220). Therefore, these Federal amendments included in Texas’ adoption by reference at 30 Texas Administrative Code (TAC) sections 335.1(146)(A)(iv), 335.27; 335.112(a)(1) and (a)(4), 335.152(a)(1) and (a)(4), 335.431(c)(1) and (c)(3), and 335.504(1) are not part of the State’s authorized program and are not part of the incorporation by reference addressed by this document.

In those instances where Texas has made unauthorized amendments to previously authorized sections of State code, the EPA is identifying in 40 CFR 272.2201(c)(4)(i) any regulations which, while adopted by the State and incorporated by reference, include language not authorized by the EPA. Those unauthorized portions of the State regulations are not federally enforceable. Thus, notwithstanding the language in Texas hazardous waste regulations incorporated by reference at 40 CFR 272.2201(c)(1), the EPA will only enforce those portions of the State regulations that are actually authorized by the EPA. For the convenience of the regulated community, the actual State regulatory text authorized by the EPA for the citations listed at 272.2201(c)(4) (*i.e.*, without the unauthorized amendments) is compiled as a separate document, *Addendum to the EPA Approved Texas Regulatory Requirements Applicable to the Hazardous Waste Management Program, dated March, 2021*. This document is available from EPA Region 6, 1201 Elm Street, Suite 500, Dallas, Texas 75270, phone number: (214) 665–8533.

State regulations that are not incorporated by reference in this rule at 40 CFR 272.2201(c)(1), or that are not listed in 40 CFR 272.2201(c)(2) (“legal basis for the State’s implementation of the hazardous waste management program”), 40 CFR 272.2201(c)(3) (“broader in scope”) or 40 CFR 272.2201(c)(4) (“unauthorized State amendments”), are considered new unauthorized State requirements. These

requirements are not federally enforceable. After review and analysis of the State’s regulations, the EPA has notified the State to seek authorization for the unauthorized rules that the State has adopted and are documented in this **Federal Register** document. The EPA expects the State to include these rules as part of their next Program Revision Application package.

Texas has adopted and was authorized for the following Federal rules which have since been vacated by the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Cir. No. 98–1379 and 08–1144, respectively, June 27, 2014): (1) the Comparable Fuels Exclusion at 40 CFR 261.4(a)(16) and 261.38 published in the **Federal Register** on June 19, 1998 (63 FR 33782), as amended on June 15, 2010 (75 FR 33712); and (2) the Gasification Exclusion Rule published on January 2, 2008 (73 FR 57).

With respect to any requirement pursuant to the Hazardous and Solid Waste Amendments of 1984 (HSWA) for which the State has not yet been authorized, the EPA will continue to enforce the Federal HSWA standards until the State is authorized for these provisions.

G. What will be the effect of Federal HSWA requirements on the codification?

The EPA is not amending 40 CFR part 272 to include HSWA requirements and prohibitions that are implemented by EPA. Section 3006(g) of RCRA provides that any HSWA requirement or prohibition (including implementing regulations) takes effect in authorized and not authorized States at the same time. A HSWA requirement or prohibition supersedes any less stringent or inconsistent State provision which may have been previously authorized by the EPA (50 FR 28702, July 15, 1985). The EPA has the authority to implement HSWA requirements in all States, including authorized States, until the States become authorized for such requirement or prohibition. Authorized States are required to revise their programs to adopt the HSWA requirements and prohibitions, and then to seek authorization for those revisions pursuant to 40 CFR part 271.

Instead of amending the 40 CFR part 272 every time a new HSWA provision takes effect under the authority of RCRA section 3006(g), the EPA will wait until the State receives authorization for its analog to the new HSWA provision before amending the State’s 40 CFR part 272 incorporation by reference. Until then, persons wanting to know whether

a HSWA requirement or prohibition is in effect should refer to 40 CFR 271.1(j), as amended, which lists each such provision.

Some existing State requirements may be similar to the HSWA requirement implemented by the EPA. However, until the EPA authorizes those State requirements, the EPA can only enforce the HSWA requirements and not the State analogs. The EPA will not codify those State requirements until the State receives authorization for those requirements.

II. Environmental Justice Considerations

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, Feb. 16, 1994) directs federal agencies to identify and address “disproportionately high and adverse human health or environmental effects” of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. The EPA defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” The EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.”¹

This rule codifies in the regulations the prior approval of Texas’ hazardous waste management program and incorporates by reference authorized provisions of the State’s statutes and regulations. EPA is not now reopening prior decisions. The incorporation by reference of State authorized programs in the CFR should enhance the public’s ability to discern the current status of the authorized State program and State requirements that can be federally enforced. This effort provides clear notice to the public of the scope of the authorized program in each State. Therefore, we conclude that this final rule does not have disproportionately high or adverse human health or environmental effects on communities with environmental justice concerns.

III. Statutory and Executive Order Reviews

The Office of Management and Budget (OMB) has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011). This action incorporates by reference Texas’ authorized hazardous waste management regulations and imposes no additional requirements beyond those imposed by State law. Therefore, this action is not subject to review by OMB. This action is not an Executive Order 13771 (82 FR 9339, February 3, 2017) regulatory action because actions such as this codification of Texas’ revised hazardous waste program under RCRA are exempted under Executive Order 12866.

Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action incorporates by reference pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538). For the same reason, this action also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely incorporates by reference existing State hazardous waste management program requirements as part of the State RCRA hazardous waste management program without altering the relationship or the distribution of power and responsibilities established by RCRA.

This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This action is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply Distribution or Use” (66 FR 28344, May 22, 2001) because it is not a significant

regulatory action under Executive Order 12866.

Under RCRA section 3006(b), EPA grants a State’s application for authorization as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. The requirements being codified are the result of Texas’ voluntary participation in the EPA’s State program authorization process under RCRA Subtitle C. Thus, the requirements of section 10(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, the EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. The EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the “Attorney General’s Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings” issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). “Burden” is defined at 5 CFR 1320.3(b).

Executive Order 12898 (59 FR 7629, Feb. 16, 1994) establishes Federal executive policy on environmental justice. Because this rule codifies pre-existing State rules which are at least equivalent to, and no less stringent than existing Federal requirements, and imposes no additional requirements beyond those imposed by State law, and there are no anticipated significant adverse human health or environmental effects, the rule is not subject to Executive Order 12898.

The Congressional Review Act, 5 U.S.C. 801–808, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A

major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This action will be effective November 21, 2024 because it is a final rule.

For the reasons set forth in the preamble, the EPA is amending 40 CFR part 272 as follows:

PART 272—APPROVED STATE HAZARDOUS WASTE MANAGEMENT PROGRAMS

- 1. The authority citation for part 272 continues to read as follows:

Authority: Sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

(a) *History of the State of Texas authorization.* Pursuant to section 3006(b) of RCRA, 42 U.S.C. 6926(b), the EPA granted Texas final authorization for the following elements as submitted to EPA in Texas’ Base program application for final authorization which was approved by EPA effective on December 26, 1984. Subsequent program revision applications were approved effective on October 4, 1985, February 17, 1987, March 15, 1990, July 23, 1990, October 21, 1991, December 4, 1992, June 27, 1994, November 26, 1997, December 3, 1997, October 18, 1999, November 15, 1999, September 11, 2000, June 14, 2005, December 29, 2008, July 13, 2009, May 6, 2011, May 7, 2012, January 9, 2013, November 3, 2014, December 21, 2015, February 26, 2016, April 10, 2020, and March 5, 2021.

(ii) Texas has partially or fully adopted, but is not authorized to implement, the Federal rules that are listed in the following table. The EPA

will continue to implement the Federal HSWA requirements for which Texas is not authorized until the State receives specific authorization for those

requirements. The EPA will not enforce the non-HSWA Federal rules although they may be enforceable under State law. For those Federal rules that contain

both HSWA and non-HSWA requirements, the EPA will enforce only the HSWA portions of the rules.
