SUMMARY: Through this notice the Bureau of Land Management (BLM) is segregating 4,037 acres of public lands included in the right-of-way application for the Expedition Solar Project from appropriation under the public land laws, including the mining laws, but not the mineral leasing or material sales laws, for a period of two years from the date of publication of this notice, subject to valid existing rights. This segregation is to allow for the orderly administration of the public lands to facilitate consideration of development of renewable energy resources.

DATES: The segregation for the lands identified in this notice is effective on the date of this **Federal Register** notice publication.

The BLM uses this temporary segregation authority to preserve its ability to approve, approve with modifications, or deny proposed rights-of-way, and to facilitate the orderly administration of the public lands. This temporary segregation is subject to valid existing rights, including valid existing rights in mining claims located before this segregation notice. Licenses,

permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that would not impact lands identified in this notice may be allowed with the approval of an authorized officer of the BLM during the segregation period.
