Welded Carbon Steel Standard Pipes and Tubes From India: Notice of Court Decision Not in Harmony With the Results of Antidumping Administrative Review; Notice of Amended Final Results

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On November 7, 2024, the U.S. Court of International Trade (CIT) issued its final judgment in *Garg Tube Export LLP and Garg Tube Limited v. United States*, Court No. 21–00169, sustaining the U.S. Department of Commerce’s (Commerce) first and second remand results pertaining to the administrative review of the antidumping duty (AD) order on welded carbon steel standard pipes and tubes (pipe and tube) from India covering the period May 1, 2018, through April 30, 2019. Commerce is notifying the public that the CIT’s final judgment is not in harmony with Commerce’s final results of the administrative review and that Commerce is amending the final results with respect to the dumping margin assigned to Garg Tube Limited and Garg Tube Export LLP (collectively, Garg Tube).

DATES: Applicable November 17, 2024.

SUPPLEMENTARY INFORMATION:

Background

On March 19, 2021, Commerce published its *Final Results* in the 2018–2019 AD administrative review of pipe and tube from India.¹ Commerce

calculated a weighted-average dumping margin of 13.90 percent for Garg Tube.²

Garg Tube appealed Commerce’s *Final Results*. On February 3, 2023, the CIT granted Commerce’s request for a voluntary remand to recalculate Garg Tube’s weighted-average dumping margin established in the *Final Results* without making a cost-based particular market situation (PMS) adjustment.³ In its final results of the first remand redetermination, issued in March 2023, Commerce reversed a PMS adjustment made to the cost of production (COP) in the *Final Results* and recalculated Garg Tube’s weighted-average dumping margin accordingly.⁴

On April 8, 2024, the CIT remanded the *Final Results* to Commerce, holding that it was not reasonably discernable from Commerce’s analysis which statutory provision under section 776 of the Tariff Act of 1930, as amended (the Act), it was relying upon in applying partial adverse facts available (AFA) with respect to COP for pipe and tube sourced from an unaffiliated supplier.⁵ The CIT further held that to the extent that Commerce relied on section 776(a) of the Act, Commerce must further support its determination by addressing the *Mueller*⁶ factors, and to the extent Commerce relied on section 776(b) of the Act, Commerce must explain why Garg Tube did not act to the best of its ability and do all that it could to cooperate.⁷

In its final results of the second remand redetermination, issued in July 2024, Commerce clarified its methodology and, under respectful protest, modified the margin calculations for Garg Tube by relying on facts available, with no adverse inference, to fill the gap in the record on the unaffiliated supplier’s missing COP information caused by its non-cooperation.⁸ The CIT sustained
