CENTRAL INTELLIGENCE AGENCY

Privacy Act of 1974; System of Records

AGENCY: Central Intelligence Agency.

ACTION: Notice of a new system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, as amended, and Office of Management and Budget (OMB) Circular No. A-108, notice is hereby given that the Central Intelligence Agency ("CIA") is submitting to the **Federal Register** one new System of Records Notice (SORN), CIA-44 Business Analytics Records. This new SORN covers CIA's collection, curation, exploration, and objective analysis of CIA business data used to inform business decisions related to the CIA workforce, facilities, and processes.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), this notice is applicable upon publication and incorporates the CIA's 19 Routine Uses published November 28, 2022 at 87 FR 73198.

ADDRESSES: Comments may be submitted by the following methods: By mail to Mark Mouser, Privacy and Civil Liberties Officer, Central Intelligence Agency, Washington, DC 20505; or by email to FedRegComments@ucia.gov. Please include "NOTICE NEW CIA SORN" in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Mark Mouser, Privacy and Civil Liberties Officer, Central Intelligence Agency, Washington, DC 20505, (571) 280-2700.

SUPPLEMENTARY INFORMATION: CIA relies on reliable, repeatable, and comparable data to, among other purposes, inform decisions and track progress in achieving CIA priorities. This data, which the CIA refers to as "business data," is captured by, or created from the use and operations of, CIA facilities, IT systems, and applications in the normal course of CIA activities and processes. The CIA's collection, curation, exploration, and objective analysis of business data has proven significantly beneficial to the CIA. For example, business data has allowed CIA leadership to recommend adjustments to CIA resource allocations, develop applications to assist the CIA workforce in completing their administrative responsibilities, and generate statistical information to inform CIA leadership decision-making on its business needs.

The CIA proposes a new System of Record Notice, CIA-44 Business Analytics Records, to further enable its business data analytic activities and identify opportunities for efficiencies in Agency services, tools, reports, properties, and facilities.

Nothing in the new SORN indicates any change in the Agency's authorities or practices regarding the collection and maintenance of information about citizens and lawful permanent residents of the United States, nor does the new SORN change any individual's rights to access or to amend their records in accordance with the Privacy Act.

In accordance with 5 U.S.C. 552a(r), the Agency has provided a report to OMB and Congress on the new system of records.

Dated: November 4, 2024.

Mark Mouser,

Privacy and Civil Liberties Officer, Central Intelligence Agency.
