Abstract of Information Available

A total of 227 lots of cultural items have been requested for repatriation. The 227 unassociated funerary objects

are 56 lots of ceramic material, 15 lots of faunal bone, 11 lots of shell material, 108 lots of flaked stone, 32 lots of ground stone, four lots of organic material, and one lot of metal cultural items. In 1947, three field trips (March, April, and May) were made by the Archaeological Survey Association of Southern California (ASA) to Moody Springs (CA-LAN-83) through the leadership of Howard Arden Edwards. These field trips to Moody Springs were made up of just Mr. Edwards and one other person and were given a 1.S accession number. The Southwest Museum (1.S) collection consists of cultural items collected in March of 1947. San Bernardino County Museum (SBCM) also obtained a small group of objects from Moody Springs, which was given the catalog number SBCM-818 (CA-LAN-83). It is unclear why or how SBCM-818 was disenfranchised from the rest of the collection, though there were many instances of collection sharing between the Southwest Museum (now part of the Autry Museum) and SBCM during this period. No ancestors are found in the collection SBCM houses.

Determinations

The Autry Museum of the American West and San Bernardino County Museum has determined that:

- The 227 lots unassociated funerary objects described above are reasonably believed to have been placed intentionally with or near individual human remains, and are connected, either at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.
- There is a reasonable connection between the cultural items described in this notice and the Yuhaaviatam of San Manuel Nation (*previously* listed as San Manuel Band of Mission Indians, California).
