

for the demolition of facilities and structures, not including historic buildings even where asbestos, PCB's, lead-based paint, and other special hazard items are present. DON CATEX (f)(37) would allow DAF to conduct routine dredging to maintain navigational channels to their original permitted depths. Use of DA CATEX (d)(2) would allow the DAF to conduct routine maintenance of stormwater conveyance structures in accordance with USACE permit requirements under section 404 of the Clean Water Act to reduce flooding. The categories of actions described herein are activities for which the DAF contemplates using the CATEXes at this time; however, DAF may expand use of the CATEXes identified in section II to other activities where appropriate and would consult with the establishing agency, as needed. When the establishing agency CATEX requires written record to document application of the CATEX, the DAF Environmental Planning Function (EPF) shall complete a detailed Air Force Form 813 *Request for Environmental Impact Analysis* to document application of the CATEX. Where the CATEX mentions the owning agency, DAF adoption makes the CATEX available for DAF activities.

IV. Consideration of Extraordinary Circumstances

If an agency determines that a CATEX covers a proposed action, the agency must evaluate the proposed action for extraordinary circumstances in which a normally excluded action may have a significant effect consistent with 40 CFR 1501.4(b). DAF has its own NEPA implementing procedures to guide its application of extraordinary circumstances. Further, DAF will apply the owning agency's extraordinary circumstances. If an extraordinary circumstance is present, determine whether there are circumstances that lessen the impacts or other conditions sufficient to avoid significant effects, consistent with 40 CFR 1501.4(b). The DAF EPF must document application of any mitigated CATEX on a fully developed AF Form 813. If DAF cannot apply a CATEX to a particular proposed action due to extraordinary circumstances, DAF will prepare an EA or EIS, consistent with 40 CFR 1501.4(b)(2).

V. Consultation With Establishing Agencies and Determination of Appropriateness

DAF worked with DA, DON, NASA, TVA, and ARS to identify thirty-five CATEXes that could apply to DAF proposed actions and began

consultation on 20 March 2024. During the consultation, the agencies discussed whether the categories of DAF proposed actions would be appropriately covered by CATEXes from the above listed Federal agencies; the extraordinary circumstances that DAF should consider before applying these CATEXes to DAF's proposed actions; the requirement to evaluate, before use of the above listed Federal agencies CATEXes, the conditions listed as integral elements in these agencies NEPA regulations (listed in Section II above); and what documentation DAF should complete when applying these CATEXes. The agencies also considered past use of the CATEXes by the DA, DON, NASA, TVA, and ARS, including how often these agencies modified a proposed action or prepared an EA or EIS for a proposed action otherwise covered by the CATEXes. At the conclusion of that process, the agencies determined that DAF's proposed use of the CATEXes as described in this notice would be appropriate.

VI. Conclusion

This notice documents adoption of the thirty-five CATEXes listed above in accordance with 42 U.S.C. 4336c (4)), and they are available for use by DAF, effective immediately.

Tommy W. Lee,

Acting Air Force Federal Register Liaison Officer.
