Proposal

The Postal Service will require mailers shipping human or animal cremated remains in any state (e.g. ashes, keepsakes and jewelry) to be shipped in the Cremated Remains packaging supplied by the Postal Service. Previously, mailers were permitted to use any box if it was marked with Label 139—Cremated Remains.

The Postal Service understands the mailing of cremated remains is a sensitive matter and believes this will improve visibility and enhance handling methods throughout processing and transportation.

Accordingly, for the reasons stated in the preamble, the Postal Service proposes to amend Publication 52 as follows:

USPS Packaging Instructions 10C

[Revise opening paragraph as follows:]  
Cremated Remains

Human or animal cremated remains in any state (e.g. ashes, keepsakes and jewelry) are permitted for mailing with restrictions, provided they are appropriately prepared according to section 451 and the following instructions.

\* \* \* \* \*

[Revise the following sections as follows:]

Mailability

- *International Mail*: Permitted via Priority Mail Express International Service when permitted by the destination country (see the Individual Country Listings in the IMM).

- *Domestic Mail*: Permitted via Priority Mail Express service only.

Required Packaging  
Primary Container

- *International*: A funeral urn is required as the inner container. It must be sealed and sift proof.

- *Domestic*: The inner container must be strong and durable and be constructed in such a manner as to protect and securely contain the contents inside and it must be properly sealed so that it is sift proof.

**Note:** A sift proof container is any vessel that does not allow loose powder to leak or sift out during transit.

\* \* \* \* \*

[Revise the following sections as follows:]

Outer Container

All cremated remains mailings must utilize the USPS-produced Cremated Remains outer packaging, found on [usps.com](https://usps.com).

Insert your inner container into a sealed plastic bag, then place in the shipping box and add padding to the bottom, sides, and top to ensure there is no movement of contents during transit.

**Note:** It is recommended that you attach a slip of paper to the sealed plastic bag with the complete return and delivery addresses and the words "Cremated Remains" in the event the mailing label becomes detached from the outer container after acceptance.

Marking

*Domestic*: A complete return address and delivery address must be used.

*International*: A complete return address and delivery address must be used. The mailer must indicate the contents (Cremated Remains) on the applicable customs declaration form.

Documentation

*International*: If available, and when required by the destination post, the cremation certificate should be attached to the outer packaging or made easily accessible. The sender is responsible for obtaining all the necessary documentation and permissions required by the national laws in the country of origin and the country of destination prior to dispatching these items.\*\*\*
