[Docket No. CP17–486–001]

National Fuel Gas Supply Corporation; Notice of Request for Extension of Time

Take notice that on November 19, 2024, National Fuel Gas Supply Corporation (National Fuel) requested that the Commission grant an extension of time, until December 1, 2025, to test Well 7451 located within the Beech Hill Storage Field buffer boundary (Project) located in Allegany and Steuben Counties, New York as authorized in the January 26, 2018 Commission Order (Order).¹ The Order required National Fuel to complete well testing of Well 7451 within three years of the date of the Order. The Commission subsequently granted two extensions of time; the current deadline for completing the well testing is December 1, 2024.²

Currently, National Fuel has completed withdrawals from Well 7451 and does not intend to undertake further withdrawals from the well. National Fuel states that it needs additional time to complete its assessment of data gathered from well testing which includes analyses of associated modeling and other data gathered over the testing period. National Fuel requests an extension of time to December 1, 2025, to complete its assessment and finalize an application filing.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on National Fuel's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension

requests that are contested,³ the Commission will aim to issue an order acting on the request within 45 days.⁴ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁵ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁶ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁷ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.
