BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day–25–1363; Docket No. CDC–2024–
0097]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and
Prevention (CDC), Department of Health
and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease
Control and Prevention (CDC), as part of
its continuing effort to reduce public
burden and maximize the utility of
government information, invites the
general public and other federal
agencies to take this opportunity to
comment on a continuing information
collection, as required by the Paperwork
Reduction Act of 1995. This notice
invites comment on the Research Data
Center (RDC) Proposal for Access to
Confidential Data for the National
Center for Health Statistics (NCHS).
This data collection is used to assess
researcher's request for access to
confidential NCHS data for their
research projects.

DATES: Written comments must be
received on or before February 3, 2025.

ADDRESSES: You may submit comments,
identified by Docket No. CDC–2024–
0097 by any of the following methods:

- *Federal eRulemaking Portal:*
www.regulations.gov. Follow the
instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information
Collection Review Office, Centers for
Disease Control and Prevention, 1600
Clifton Road NE, MS–H21–8, Atlanta,
Georgia 30329.

Instructions: All submissions received
must include the agency name and
Docket Number. All relevant comments
received will be posted without change
to *www.regulations.gov*, including any

personal information provided. For
access to the docket to read background
documents or comments received, go to
www.regulations.gov.

Please note: All public comment
should be submitted through the
Federal eRulemaking portal
(*www.regulations.gov*) or by U.S. mail to
the address listed above.

FOR FURTHER INFORMATION CONTACT: To
request more information on the
proposed project or to obtain a copy of
the information collection plan and
instruments, contact Jeffrey M. Zirger,
Information Collection Review Office,
Centers for Disease Control and
Prevention, 1600 Clifton Road NE, MS–
H21–8, Atlanta, Georgia 30329;
Telephone: 404–639–7570; Email: *omb@
cdc.gov*.

SUPPLEMENTARY INFORMATION: Under the
Paperwork Reduction Act of 1995 (PRA)
(44 U.S.C. 3501–3520), federal agencies
must obtain approval from the Office of
Management and Budget (OMB) for each
collection of information they conduct
or sponsor. In addition, the PRA also
requires federal agencies to provide a
60-day notice in the **Federal Register**
concerning each proposed collection of
information, including each new
proposed collection, each proposed
extension of existing collection of
information, and each reinstatement of
previously approved information
collection before submitting the
collection to OMB for approval. To
comply with this requirement, we are
publishing this notice of a proposed
data collection as described below.

The OMB is particularly interested in
comments that will help:

1. Evaluate whether the proposed
collection of information is necessary
for the proper performance of the
functions of the agency, including
whether the information will have
practical utility;
2. Evaluate the accuracy of the
agency's estimate of the burden of the
proposed collection of information,
including the validity of the
methodology and assumptions used;
3. Enhance the quality, utility, and
clarity of the information to be
collected;
4. Minimize the burden of the
collection of information on those who
are to respond, including through the
use of appropriate automated,
electronic, mechanical, or other
technological collection techniques or

other forms of information technology,
e.g., permitting electronic submissions
of responses; and

5. Assess information collection costs.

Proposed Project

Research Data Center (RDC) Proposal
for Access to Confidential Data for the
National Center for Health Statistics
(OMB Control No. 0920–1363, Exp. 4/
30/2025)—Extension—National Center
for Health Statistics (NCHS), Centers for
Disease Control and Prevention (CDC).

Background and Brief Description

Section 306(b)(4) of the Public Health
Service (PHS) Act (42 U.S.C. 242k(b)(4)),
as amended, authorizes the Secretary of
Health and Human Services (DHHS),
acting through NCHS, to receive
requests for providing data and statistics
to the public. NCHS receives requests
for confidential data from the public
through the Research Data Center (RDC)
Proposal for Access to Confidential
Data. This is a request for an Extension
without change from OMB to collect
information via the RDC proposal over
the next three years at an overall burden
rate of 990 hours.

As part of a comprehensive data
dissemination program, the Research
Data Center (RDC), National Center for
Health Statistics (NCHS), Centers for
Disease Control and Prevention,
requires prospective researchers who
need access to confidential data to
complete a research proposal.
Researchers self-select whether they
need access to confidential data to
answer their research questions. The
RDC requires the researcher to complete
a research proposal so NCHS
understands the research proposed,
whether confidential data are available
to address the research questions, how
the confidential data will be used and
what data outputs the researcher needs
to satisfy their project. The completed
proposal is sent to NCHS for
adjudication on whether the proposed
research is possible.

To capture the information needed to
adjudicate researchers' need for access
to confidential NCHS data, this request
allows for both respondents and time
per response for a total estimated annual
burden total of 330 hours (990 hours for
a three-year clearance period). There is
no cost to respondents other than their
time to complete the proposal.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Avg. burden per response (in hrs.)	Total burden (in hrs.)
Researcher	Research Data Center proposal	110	1	3	330
Total	330

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Public Health Ethics and Regulations, Office of Science, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC-2024-0100]

Draft CDC’s Recommendations for HIV Screening in Clinical Settings

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention in the Department of Health and Human Services announces the opening of a docket to obtain comment on the draft Recommendations for HIV Screening in Clinical Settings, that update portions of CDC’s “Revised Recommendations for HIV Testing of Adults, Adolescents, and Pregnant Women in Health-Care Settings,” published in 2006.

DATES: Written comments must be received on or before January 2, 2025.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2024-0100 by either of the methods listed below. Do not submit comments by email. CDC does not accept comments by email.

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* National Center for HIV, Viral Hepatitis, STD, and TB Prevention, CDC, 1600 Clifton Road NE, Mailstop U.S. 8-6, Atlanta, GA 30329-4027.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to <https://regulations.gov>, including any personal information provided. For access to the docket to read background documents or comments received, go to <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Cecily Campbell, National Center for HIV, Viral Hepatitis, STD, and TB Prevention, CDC, 1600 Clifton Road NE, Mailstop U.S. 8-6, Atlanta, GA 30329-4027, Email: nchhstppolicy@cdc.gov. Office phone: 404-639-0485.

SUPPLEMENTARY INFORMATION: CDC is requesting public comment on the draft “Recommendations for HIV Screening in Clinical Settings,” which is available on [regulations.gov](https://www.regulations.gov) in Docket CDC-2024-0100. These recommendations modify the ages for HIV screening including eliminating an upper age limit, encourage providers to use clinical decision support tools such as automated HIV test laboratory orders to implement HIV screening, provide considerations for healthcare populations on which to conduct HIV screening, recommend anyone who requests a test should be tested, and emphasize the use of a general consent process as used for other routine tests. CDC describes the methods and supporting evidence in the recommendations. The recommendations’ objectives are to diagnose and link patients with undiagnosed infection to clinical care; relink persons with previously diagnosed HIV to clinical care; diagnose HIV infection earlier; and reduce HIV transmission in the United States.

Public Participation

Interested persons or organizations are invited to participate by submitting written views, recommendations, and data. In addition, CDC invites comments specifically on the following questions proposed in this document:

- Does the evidence presented support the proposed recommendations for HIV screening in clinical settings, including the benefits and harms of HIV screening? If not, please state the reason why and, if available, provide additional evidence for consideration.
 - Are CDC’s proposed recommendations for HIV screening in clinical settings clearly written? If not, what changes do you propose to make it clearer?
 - If implemented as currently drafted, do you believe these recommendations would improve HIV screening in

clinical settings, improve diagnoses and linking patients with undiagnosed infection to clinical care; relinking persons with previously diagnosed HIV to clinical care; diagnosing HIV infection earlier; and reducing HIV transmission in the United States? If not, please provide an explanation and supporting data or evidence.

- How should CDC disseminate the final recommendations to effectively reach end users such as healthcare providers in clinical settings?
- After the recommendations are finalized, CDC is planning to publish an implementation guide for healthcare providers to supplement the updated recommendations. What should the implementation guide include?

Please note that comments received, including attachments and other supporting materials, are part of the public record and are subject to public disclosure. Comments will be posted on <https://www.regulations.gov>. Therefore, do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure. If you include your name, contact information, or other information that identifies you in the body of your comments, that information will be on public display. CDC will review all submissions and may choose to redact, or withhold, submissions containing private or proprietary information such as Social Security numbers, medical information, inappropriate language, or duplicate/near duplicate examples of a mass-mail campaign. Do not submit comments by email. CDC does not accept comment by email.

After the comments received on the draft are considered and addressed, the final recommendations will be published on CDC’s website at <https://www.cdc.gov/hiv/guidelines/testing.html>. The final recommendations will also be posted to docket CDC-2024-0100 at www.regulations.gov.

Background

Human immunodeficiency virus (HIV) is a virus that attacks the body’s immune system. The only way a person can know their HIV status is by getting tested (CDC, 2024a). While there is no
