

Total Estimated Annual Cost to Respondents: The total estimated annualized respondent cost is approximately \$795, based on an average total hourly employee compensation rate of \$45.41 for private industry workers in goods producing industries (17.5 hours × \$45.41 = \$794.68) (U.S. Bureau of Labor Statistics, Employer Costs for Employee Compensation, Table 4, June 2024, https://www.bls.gov/news.release/archives/ecec_09102024.pdf.)

General Description of Collection: In 16 CFR part 1406, Coal and Wood Burning Appliances—Notification of Performance and Technical Data, issued under Section 27(e) of the Consumer Product Safety Act, 15 U.S.C. 2076(e), CPSC requires that certain performance and technical data be supplied on labeling attached to or accompanying each model of coal and wood burning stoves, freestanding fireplaces, similar appliances, and in instruction manuals provided with the appliances so consumers will be aware of important safety information concerning the installation, operation, and maintenance of these appliances. In addition, catalogs and other point-of-sale literature are required to contain appropriate clearances and other information.

The rule also contains a requirement that manufacturers provide to the Commission copies of the notice (label) and the directions (instruction manual). Manufacturers must also provide the Commission with a statement of the reasons supporting the manufacturer's conclusion that clearance distances stated in the notice to consumers are appropriate for preventing fires, for each stove model manufactured. This information must also be supplied when there is any change in the required data or when a new model is introduced.

All known manufacturers have already complied with the requirements for providing information in labels, manuals, catalogs, and point-of-sale literature and have met the requirements for submitting all labels and owner's manuals. For the known manufacturers, there should be no additional burden associated with the requirements of 16 CFR part 1406, except when existing models are changed, or new models are introduced. We anticipate that there will be no more than five submissions annually as a result of new stove models coming into the market or new firms entering the market.

Request for Comments:

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission

specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.
