

(c) An amendment may not alter the term of a right-of-way permit, except for a single extension of up to one year to prevent expiration of the right-of-way permit when there is a reasonable delay or ongoing good faith negotiations regarding renewal of an expiring right-of-way permit.

(d) Requests by the permittee for an amendment to a right-of-way permit must be in writing, signed by a representative legally authorized to bind the permittee, and must contain the following information:

- (1) Right-of-way permit number;
- (2) Permittee name;
- (3) System unit name;
- (4) Description of the activities and infrastructure authorized by the right-of-way permit;
- (5) Description of the proposed amendment;
- (6) Description of the purpose or justification for the requested amendment; and
- (7) Other information required by the NPS.

(e) The decision to approve an amendment is at the discretion of the NPS. Amendments will be reviewed and executed using the procedures that apply to the review and execution of right-of-way permits in paragraphs (a) through (c) in § 14.5. An approved amendment is deemed to be a part of the original right-of-way permit.

§ 14.15 Right-of-way permit suspension and termination.

(a) At any time during the term of a right-of-way permit and upon written notice provided to the permittee, the NPS may suspend or terminate all or any part of the right-of-way permit without liability or expense to the United States.

(b) If the NPS intends to suspend or terminate all or part of a right-of-way permit, the permittee may be provided an opportunity to cure the cause prior to commencement of the suspension or termination.

(c) Reasons for suspension or termination include, but are not limited to:

- (1) Visitor and resource protection concerns;
- (2) Failure to comply with right-of-way permit terms and conditions;
- (3) Failure to comply with any provision of this part; or
- (4) Abandonment or nonuse.

(d) A permittee may terminate a right-of-way permit by providing a written notice of termination to the NPS that is signed by the permittee's authorized representative and identifies the desired date of termination.

(e) Upon suspension, the permittee remains responsible for fulfilling all

obligations under the permit, including payment of any use and occupancy fees and cost recovery due.

(f) Upon termination, the permittee will remain responsible for fulfilling all obligations under the permit, including:

- (1) Payment of any use and occupancy fees and any cost recovery due;
- (2) Restoration and reclamation of the permitted area; and
- (3) Any other terms and conditions that survive the termination of the right-of-way permit.

§ 14.16 Trespass.

(a) Any uses, activities, or infrastructure not specifically authorized under a valid right-of-way permit or other legal authorization are prohibited and considered a trespass against the United States.

(b) The NPS may require an entity in trespass to immediately remove any of its infrastructure in trespass or cease the uses or associated activities and may pursue any additional legal remedy, penalty, or fees available.

(c) The NPS may continue to enforce the terms and conditions of an expired right-of-way permit, including collection of cost recovery and use and occupancy fees. An entity with an expired right-of-way permit has no authorization for continued use of lands and waters, and operation and maintenance, and those uses and associated infrastructure are considered a trespass.

(d) The NPS may require an entity to apply for a permit to authorize maintenance activities on infrastructure considered in trespass. Any permit issued for maintenance will not authorize the presence of the infrastructure. A maintenance permit will be considered only for activities that are required to maintain the safety of the infrastructure, and to protect public health and safety, visitor experience, or the resources and values of the park area.

§ 14.17 Penalties.

Violation of any section of this part, including any term and condition of a right-of-way permit, may result in fine or imprisonment, or both, in accordance with 36 CFR 1.3.

§ 14.18 Restoration and reclamation.

(a) After expiration or termination of the right-of-way permit, the permittee must restore or reclaim the permitted area to standards directed and approved by the NPS.

(b) If restoration or reclamation is not completed within a reasonable time or in accordance with a schedule established in a special use permit for

the restoration and reclamation activities, the permittee will be liable to the NPS for all costs of restoring and reclaiming the permitted area undertaken by the NPS, or its contractor, to the satisfaction of the NPS. This obligation will survive the termination or expiration of a right-of-way permit.

§ 14.19 Severability.

If a court holds any provisions of the regulations in this part or their applicability to any person or circumstances invalid, the remainder of these rules and their applicability to other people or circumstances will not be affected.

Shannon A. Estenoz,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R10–OAR–2023–0583, FRL–11575–03–R10]

Air Plan Approval; ID; Revisions to Air Quality Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving revisions to the Idaho State Implementation Plan (SIP) submitted on May 8, 2023, and May 13, 2024. The revisions update the adoption by reference of specific Federal standards and reference methods and streamline the Idaho air quality regulations by repealing outdated provisions, striking duplicative terms, and simplifying rule language.

DATES: This final rule is effective January 6, 2025.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R10–OAR–2023–0583. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *e.g.*, Confidential Business Information or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are

available at <https://www.regulations.gov>, or please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Kristin Hall, EPA Region 10, 1200 Sixth Avenue, Suite 155, Seattle, WA 98101, at (206) 553-6357 or hall.kristin@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document, wherever “we” or “our” is used, it means the EPA.

I. Background

On June 24, 2024, the EPA proposed to approve revisions to the Idaho SIP to update the adoption by reference of specific Federal standards and reference methods and streamline the Idaho air quality regulations by repealing outdated provisions, striking duplicative terms, and simplifying rule language (89 FR 52415). The reasons for our proposed action are included in the proposal and will not be restated here. The public comment period closed on July 24, 2024. We received two comments from members of the public. The full text of the comments may be found in the docket for this action. We have summarized the comments in the following section II. of this preamble.

II. Comments

The first commenter conveyed overall support for our proposed action. The EPA acknowledges the commenter’s support.

The second commenter expressed concern about air emissions from cannabis plants and stated there is a need to study volatile organic compound emissions from the plants and how such emissions may contribute to ozone formation. This comment is outside the scope of this action. The revisions to Idaho’s SIP do not relate to cannabis production in general or VOC emissions from cannabis production in particular. Rather, the revisions to Idaho’s SIP update the adoption by reference of specific Federal standards and reference methods and streamline the Idaho air quality regulations by repealing outdated provisions, striking duplicative terms, and simplifying rule language. In addition, the commenter did not indicate that EPA approval of the SIP submissions is inconsistent with the Clean Air Act.

Therefore, for the reasons stated in this preamble and our proposed action on June 24, 2024, we are finalizing our action as proposed (89 FR 52415).

III. Final Action

The EPA is approving, and incorporating by reference into 40 CFR 52.670(c), the air quality regulatory revisions submitted by Idaho on May 8, 2023 and May 13, 2024, as detailed in this section.

A. IDAPA Provisions for Approval and Incorporation by Reference

Upon the effective date of this final action, the Idaho SIP will incorporate the following sections of the Idaho Rules for the Control of Air Pollution (IDAPA 58.01.01), State effective March 28, 2023, unless otherwise specified:

- IDAPA 58.01.01.001 Title and scope (describing the title and general scope);
- IDAPA 58.01.01.005 Definitions (referencing the terms defined in State statute and Federal regulations to be used in the Idaho air quality regulations);
- IDAPA 58.01.01.006 General definitions (defining centralized terms used in the Idaho air quality regulations), except 006.23, 006.24, 006.25, 006.30, 006.31.b, 006.49, 006.50, 006.51;
- IDAPA 58.01.01.007 Definitions for the purposes of sections 200 through 228 and 400 through 461 (defining centralized terms used in the major and minor source permitting programs);
- IDAPA 58.01.01.107 Incorporations by reference (listing the codes, rules and standards incorporated by reference into the Idaho air quality regulations), except 107.06 through 107.16, State effective July 1, 2024;
- IDAPA 58.01.01.108 Obligation to comply (requiring that receiving a permit or certificate of registration does not relieve the owner or operation of the obligation to comply with all applicable regulations);
- IDAPA 58.01.01.121 Compliance requirements by department (detailing actions to ensure compliance with the air quality rules);
- IDAPA 58.01.01.122 Information orders by the department (establishing how information may be obtained in implementing the air quality rules);
- IDAPA 58.01.01.123 Certification of documents (requiring documents submitted to be certified as true, accurate and complete);
- IDAPA 58.01.01.125 False statements (prohibiting false statements, representation, or certification);
- IDAPA 58.01.01.126 Tampering (prohibiting interference with monitoring device, method, rule or order);
- IDAPA 58.01.01.130 Startup, shutdown, scheduled maintenance, safety measures, upset and breakdown

(defining startup, shutdown, upset and scheduled maintenance), State effective July 1, 2024;

- IDAPA 58.01.01.131 Excess emissions (establishing enforcement discretion criteria in the event of excess emissions);
- IDAPA 58.01.01.132 Correction of condition (requiring appropriate action to correct conditions causing an excess emissions event);
- IDAPA 58.01.01.133 Startup, shutdown and scheduled maintenance requirements (prescribing notifications, recordkeeping, reporting and other actions related to modes of operation);
- IDAPA 58.01.01.134 Upset, breakdown and safety requirements (identifying safety requirements and measures to minimize excess emissions during upsets);
- IDAPA 58.01.01.135 Excess emissions reports (detailing required data to be reported about excess emissions events);
- IDAPA 58.01.01.136 Excess emissions records (requiring records retention related to excess emissions);
- IDAPA 58.01.01.155 Circumvention (prohibiting the concealment of emissions);
- IDAPA 58.01.01.157 Test methods and procedures (establishing procedures for source test methods);
- IDAPA 58.01.01.164 Polychlorinated biphenyls (PCBs) (prohibiting the burning or selling of PCBs);
- IDAPA 58.01.01.175 Procedures and requirements for permits establishing a facility emissions cap (setting uniform procedures for a source to seek a facility emissions cap);
- IDAPA 58.01.01.176 Facility emissions cap, except provisions relating to hazardous air pollutants (establishing applicability and definitions for facility emissions cap requirements);
- IDAPA 58.01.01.178 Standard contents of permits establishing a facility emissions cap (listing the required contents of a permit establishing a facility emissions cap);
- IDAPA 58.01.01.179 Procedures for issuing permits establishing a facility emissions cap (identifying the procedures to be followed in issuing a facility emissions cap);
- IDAPA 58.01.01.180 Revisions to permits establishing a facility emissions cap (requiring changes to permit terms and conditions under certain circumstances);
- IDAPA 58.01.01.181 Notice and record-keeping of estimates of ambient concentrations (prescribing the process to make allowable changes to a facility emissions cap);

- IDAPA 58.01.01.200 Procedures and requirements for permits to construct (establishing uniform procedures for issuing permits to construct);
 - IDAPA 58.01.01.201 Permit to construct required (requiring owners and operators of certain facilities to obtain permits to construct unless otherwise covered by a general permit or permit by rule);
 - IDAPA 58.01.01.202 Application procedures (requiring a certified application using approved forms when applying for a permit to construct);
 - IDAPA 58.01.01.203 Permit requirements for new and modified stationary sources, except 203.03 (stating that no permit will be issued unless a source complies with applicable emission limits and does not cause or contribute to a violation of an ambient air quality standard);
 - IDAPA 58.01.01.204 Permit requirements for new major facilities or major modifications in nonattainment areas (requiring LAER and offsets for new major facilities and major modifications in nonattainment areas);
 - IDAPA 58.01.01.205 Permit requirements for new major facilities or major modifications in attainment or unclassifiable areas (requiring new major facilities and major modifications meet certain requirements to construct in attainment areas);
 - IDAPA 58.01.01.206 Optional offsets for permits to construct (offering the option to offset emissions using credits);
 - IDAPA 58.01.01.208 Demonstration of net air quality benefit (establishing how to demonstrate net air quality benefit for emissions trades);
 - IDAPA 58.01.01.209 Procedure for issuing permits (laying out application, public process and approval procedures for issuing permits);
 - IDAPA 58.01.01.211 Conditions for permits to construct (conditioning permits to include monitoring, performance testing, cancellation);
 - IDAPA 58.01.01.212 Relaxation of standards or restrictions (spelling out major preconstruction permitting requirements when a limit has been relaxed);
 - IDAPA 58.01.01.213 Pre-permit construction (specifying when certain minor sources may request to construct before obtaining the permit);
 - IDAPA 58.01.01.220 General exemption criteria for permit to construct exemptions (detailing exemptions from the requirements to obtain a permit to construct);
 - IDAPA 58.01.01.221 Category I exemption (specifying exemptions for sources below regulatory concern);
 - IDAPA 58.01.01.222 Category II exemption (detailing exemptions for sources such as laboratory equipment, pilot plants, mobile engines, retail gasoline facilities, etc.);
 - IDAPA 58.01.01.226 Payment of fees for permits to construct (requiring application and processing fee payment for permits to construct);
 - IDAPA 58.01.01.227 Receipt and usage of fees (requiring received fees to be used to administer the permit to construct and Tier II operating permit programs)
- IDAPA 58.01.01.400 Procedures and requirements for Tier II operating permits (stating the purpose of the Tier II operating permit rules);
 - IDAPA 58.01.01.401 Tier II operating permit, except 401.01.a and 401.04 (laying out optional and required Tier II operating permits);
 - IDAPA 58.01.01.402 Application procedures (laying out how to apply for a Tier II operating permit);
 - IDAPA 58.01.01.403 Permit requirements for Tier II sources (requiring that no permit be issued unless it would include all applicable emission limits and ambient air quality standards);
 - IDAPA 58.01.01.404 Procedure for issuing permits (general procedures for issuing Tier II permits);
 - IDAPA 58.01.01.405 Conditions for Tier II operating permits (laying out permit terms, performance test requirements, and other conditions);
 - IDAPA 58.01.01.460 Requirements for emission reduction credit (establishing the conditions that constitute a creditable emission reduction);
 - IDAPA 58.01.01.461 Requirements for banking emission reduction credits (ERC's) (setting out how emission reduction credits may be banked);
 - IDAPA 58.01.01.500 Registration procedures and requirements for portable equipment (requiring all portable equipment to be registered);
 - IDAPA 58.01.01.510 Stack heights and dispersion techniques (establishing criteria for good engineering practice related to stack heights and dispersion techniques);
 - IDAPA 58.01.01.511 Requirements (providing that the required degree of emission control must not be affected by the amount of stack height that exceeds good engineering practices);
 - IDAPA 58.01.01.512 Opportunity for public hearing (providing an opportunity for a public hearing where a stack height would exceed good engineering practices);
 - IDAPA 58.01.01.513 Approval of field studies and fluid models (requiring approval of field studies and fluid models by the EPA);
- IDAPA 58.01.01.514 No restriction on actual stack height (providing that these rules do not restrict actual stack height);
 - IDAPA 58.01.01.550 Air quality episodes (defining requirements in the event of episodes of poor air quality);
 - IDAPA 58.01.01.556 Criteria for declaring air quality episodes (identifying alert, warning and emergency episode stages);
 - IDAPA 58.01.01.557 Requirements during air quality episodes (prescribing actions to be taken during air quality episode stages);
 - IDAPA 58.01.01.558 Notification of air quality episode (defining what information will be provided to the public in the event of an air quality episode);
 - IDAPA 58.01.01.562 Specific air quality episode abatement plans for stationary sources (requiring specific sources to adopt and implement their own abatement plans in the event of an air quality episode);
 - IDAPA 58.01.01.579 Baselines for prevention of significant deterioration (establishing the baseline dates to be used in the PSD permitting program);
 - IDAPA 58.01.01.580 Classification of prevention of significant deterioration areas (listing procedures for redesignating PSD areas);
 - IDAPA 58.01.01.581 Prevention of significant deterioration (PSD) increments (establishing the allowable degree of deterioration for areas that have air quality better than the ambient standards);
 - IDAPA 58.01.01.600 Rules for control of open burning (establishing rule to protect human health and the environment from air pollutants resulting from open burning);
 - IDAPA 58.01.01.601 Fire permits, hazardous materials, and liability (stating that a person is not exempt from other laws and ordinances related to open burning);
 - IDAPA 58.01.01.602 Nonpreemption of other jurisdiction (stating that these rules are not intended to interfere with the rights of other agencies to provide equal or more stringent open burning controls);
 - IDAPA 58.01.01.603 General requirements (prescribing the general open burning restrictions);
 - IDAPA 58.01.01.606 Categories of allowable burning (listing the categories of allowable open burning);
 - IDAPA 58.01.01.607 Recreational and warming fires (describing the campfires, barbecues, ceremonial fires and small handwarming fires that are allowed);

- IDAPA 58.01.01.608 Weed control fires (describing the weed abatement fires that are allowed);
 - IDAPA 58.01.01.609 Training fires (describing the fire and land management training fires that are allowed);
 - IDAPA 58.01.01.611 Residential yard waste fires (describing the yard waste disposal fires that are allowed);
 - IDAPA 58.01.01.612 Solid waste facility fires (describing when solid waste disposal fires may be allowed);
 - IDAPA 58.01.01.613 Orchard fires (describing orchard clipping disposal fires that are allowed);
 - IDAPA 58.01.01.614 Prescribed fires (describing the prescribed fire that may be allowed under certain conditions);
 - IDAPA 58.01.01.615 Dangerous material fires (describing allowable fires ignited under the direction of a public or military fire chief to dispose of dangerous materials);
 - IDAPA 58.01.01.616 Infectious waste burning (describing allowable infectious waste fires conducted under the direction of a public health officer);
 - IDAPA 58.01.01.617 Crop residue disposal (establishing requirements for crop residue disposal fires);
 - IDAPA 58.01.01.618 Permit by rule (requiring that no person may conduct an open burn of crop residue without the applicable permit by rule);
 - IDAPA 58.01.01.619 Registration (establishing registration requirements for crop residue burn permit by rule);
 - IDAPA 58.01.01.620 Burn fee (setting fee payment deadline for crop residue burns);
 - IDAPA 58.01.01.621 Burn approval (establishing the criteria for crop residue burn approval);
 - IDAPA 58.01.01.622 General provisions (listing the requirements for persons conducting crop residue burns);
 - IDAPA 58.01.01.623 Public notification (indicating that the Idaho DEQ will notify the public of burn or no-burn days);
 - IDAPA 58.01.01.624 Spot and baled crop residue burn and propane flaming requirements (detailing the requirements for spot burns, baled burns and propane flaming);
 - IDAPA 58.01.01.625 Visible emissions (establishing opacity limits and test methods);
 - IDAPA 58.01.01.650 Rules for control of fugitive dust (requiring that all reasonable precautions be taken to prevent fugitive dust);
 - IDAPA 58.01.01.651 General rules (establishing general requirements to limit the generation of fugitive dust);
 - IDAPA 58.01.01.665 Regional haze rules (addressing visibility impairment in mandatory Class I Federal areas);
 - IDAPA 58.01.01.666 Reasonable Progress goals (establishing goals for reasonable progress toward natural visibility conditions);
 - IDAPA 58.01.01.667 Long-term strategy for regional haze (establishing long-term strategy requirements);
 - IDAPA 58.01.01.675 Fuel burning equipment—particulate matter (establishing particulate matter standards for fuel burning equipment);
 - IDAPA 58.01.01.676 Standards for new sources (setting particulate limits for new fuel burning equipment);
 - IDAPA 58.01.01.677 Standards for minor and existing sources (setting particulate limits for minor and existing fuel burning equipment);
 - IDAPA 58.01.01.678 Combinations of fuels (addressing particulate limits when two or more types of fuel are burned concurrently);
 - IDAPA 58.01.01.679 Averaging period (establishing the appropriate averaging period for determining particulate emissions from fuel burning equipment);
 - IDAPA 58.01.01.680 Altitude correction (addressing how to correct standard conditions for the altitude of a source);
 - IDAPA 58.01.01.681 Test methods and procedures (setting the appropriate test method for measuring fuel burning particulate emissions);
 - IDAPA 58.01.01.700 Particulate matter—process weight limitations (establishing particulate matter emission limitations for process equipment);
 - IDAPA 58.01.01.701 Particulate matter—new equipment process weight limitations (listing emission standards for new process equipment);
 - IDAPA 58.01.01.702 Particulate matter—existing equipment process weight limitations (listing emission standards for existing process equipment);
 - IDAPA 58.01.01.703 Particulate matter—other processes (establishing process weight limitations for equipment used to dehydrate sugar beet pulp or alfalfa);
 - IDAPA 58.01.01.725 Rules for sulfur content of fuels (establishing limits on the sulfur content of fuels);
 - IDAPA 58.01.01.791 General control requirements (prohibiting owners and operators of rock crushers from injuring human health, welfare, property and other requirements);
 - IDAPA 58.01.01.793 Emissions standards for nonmetallic mineral processing plants not subject to 40 CFR part 60, subpart OOO (requiring compliance with emissions and opacity standards);
 - IDAPA 58.01.01.794 Permit requirements, except 794.04 (setting rock crusher permit by rule eligibility);
 - IDAPA 58.01.01.795 Permit by rule requirements (establishing rock crusher permit by rule requirements);
 - IDAPA 58.01.01.796 Applicability (establishing permit by rule and permit applicability);
 - IDAPA 58.01.01.797 Registration for permit by rule (identifying how to register for the rock crusher permit by rule);
 - IDAPA 58.01.01.798 Electrical generators (listing the fuel and operation requirements for electrical generators used to provide power to rock crushers);
 - IDAPA 58.01.01.799 Nonmetallic mineral processing plant fugitive dust best management practice (establishing best practices to limit fugitive dust);
 - IDAPA 58.01.01.815 Rules for control of kraft pulp mills (establishing emission standards and reporting requirements for recovery furnaces at kraft pulp mills); and
 - IDAPA 58.01.01.818 Kraft pulp mill LVHC and HVLC gas venting notification and reporting (requiring excess emissions notification and reporting by subject sources).
- B. Idaho Code for Approval and Incorporation by Reference*
- Upon the effective date of this action, the Idaho SIP at 40 CFR 52.670(c) will include the following provisions of Idaho statute, State effective July 1, 2010:
- Idaho Code 39.103 Definitions, except (4), (5), (8), (9), (10), (12), (13), (14), (15), (16), (17), and (18).
- C. IDAPA Provisions To Be Removed From Incorporation by Reference*
- The EPA is also approving Idaho's request to remove from incorporation by reference in 40 CFR 52.670(c) the following regulations:
- IDAPA 58.01.01.004 Catchlines (stating that catchlines are not to be used to interpret regulations), State effective May 1, 1994;
 - IDAPA 58.01.01.011 Definitions for the purposes of sections 790 through 799, State effective March 15, 2002;
 - IDAPA 58.01.01.106 Abbreviations (spelling out the abbreviations used in the Idaho air quality regulations), State effective May 1, 1994;
 - IDAPA 58.01.01.124 Truth, accuracy and completeness of documents (requiring documents submitted to the state to be true, accurate and complete), State effective May 1, 1994;
 - IDAPA 58.01.01.127 Format of responses (requiring documents to be submitted to meet state-specified formatting requirements), State effective May 1, 1994;
 - IDAPA 58.01.01.160 Provisions governing specific activities and

conditions (regarding toxic air pollutants and polychlorinated biphenyls), State effective April 5, 2000;

- IDAPA 58.01.01.162 Modifying physical conditions (addressing conditions that affect the dispersion of pollutants), State effective May 1, 1994;
- IDAPA 58.01.01.163 Source density (addressing situations where a number of sources are located in proximity to each other), State effective May 1, 1994;
- IDAPA 58.01.01.212 Obligation to comply (requiring compliance with all applicable local, state and Federal statutes, rules, and regulations), State effective May 1, 1994;
- IDAPA 58.01.01.406 Obligation to comply (requiring compliance with all applicable local, state and Federal statutes, rules, and regulations), State effective May 1, 1994;
- IDAPA 58.01.01.515 Approval of field studies and fluid models (requiring EPA approval of field studies and fluid models), State effective May 1, 1994;
- IDAPA 58.01.01.516 No restrictions on actual stack height (addressing actual stack height), State effective May 1, 1994;
- IDAPA 58.01.01.551 Episode criteria (listing air quality episode criteria), State effective May 1, 1994;
- IDAPA 58.01.01.552 Stages (defining air quality episode stages), State effective March 15, 2002;
- IDAPA 58.01.01.553 Effects of stages (addressing the effects of reaching episode stages), State effective March 15, 2002;
- IDAPA 58.01.01.559 Manner and frequency of notification (addressing the manner and frequency of episode announcements), State effective May 1, 1994;
- IDAPA 58.01.01.560 Notification to sources (requiring significant sources be notified), State effective April 11, 2006;
- IDAPA 58.01.01.561 General rules (establishing the general control requirements for each episode stage), State effective April 11, 2006;
- IDAPA 58.01.01.575 Air quality standards and area classification (establishing state ambient air quality standards), State effective April 11, 2006;
- IDAPA 58.01.01.576 General provisions for ambient air quality standards (addressing general standards), State effective May 1, 1994;
- IDAPA 58.01.01.578 Designation of attainment, unclassifiable, and nonattainment areas (listing steps for state designation of areas), State effective May 1, 1994;
- IDAPA 58.01.01.610 Industrial flares (addressing industrial flares as open burning), State effective March 21, 2003;

- IDAPA 58.01.01.626 General restrictions on visible emissions from wigwam burners (setting opacity limits for wigwam burners), State effective April 5, 2000;
- IDAPA 58.01.01.668 BART requirements for regional haze (outlining the process of establishing best available retrofit technology requirements for sources), State effective March 30, 2007;
- IDAPA 58.01.01.785 Rules for control of incinerators (establishing incinerator particulate matter limits), State effective May 1, 1994;
- IDAPA 58.01.01.786 Emission limits (limiting particulate matter emissions from incinerators), State effective April 5, 2000;
- IDAPA 58.01.01.787 Exceptions (exempting wigwam burners from incinerator emission limits), State effective March 23, 1998;
- IDAPA 58.01.01.805 Rules for control of hot mix asphalt plants (limiting particulate matter emissions from hot mix asphalt plants), State effective May 1, 1994;
- IDAPA 58.01.01.806 Emission limits (requiring compliance with the process weight rate limitations), State effective May 1, 1994;
- IDAPA 58.01.01.807 Multiple stacks (establishing that total emissions from all stacks are to be compared to the emission limit), State effective May 1, 1994; and
- IDAPA 58.01.01.808 Fugitive dust control (requiring fugitive dust control systems), State effective May 1, 1994.

IV. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, we are finalizing the incorporation by reference of the Idaho regulatory provisions described in section III. of this preamble and set forth in the amendments to 40 CFR part 52 in this document. We are also removing from the SIP certain IDAPA regulatory provision identified in section III. of this preamble. The EPA has made, and will continue to make, these materials generally available through <https://www.regulations.gov> and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally enforceable under sections 110 and 113 of the Clean Air Act as of the effective date of the final

rule of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.¹

Also in this document, the EPA is removing regulatory text from incorporated by reference, as described in section III. of this preamble.

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
 - Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
 - Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.
- Executive Order 12898 (Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address

¹ 62 FR 27968 (May 22, 1997).

“disproportionately high and adverse human health or environmental effects” of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. The EPA defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” The EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.”

The air agency did not evaluate environmental justice considerations as part of its SIP submission; the Clean Air Act and applicable implementing regulations neither prohibit nor require such an evaluation. The EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of this action, it is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent

with the stated goal of Executive Order 12898 of achieving environmental justice for communities with EJ concerns.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications and it will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

This action is subject to the Congressional Review Act, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by February 3, 2025. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to

enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: November, 26, 2024.

Casey Sixkiller,

Regional Administrator, Region 10.

For the reasons set forth in the preamble, 40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart N—Idaho

- 2. In § 52.670, revise and republish paragraph (c) to read as follows:

§ 52.670 Identification of plan.

* * * * *

(c) *EPA approved laws and regulations.*

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA-HQ-OPP-2023-0257; FRL-12338-01-OCSPP]

Cyazofamid; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of cyazofamid in or on multiple crops listed later in this document. Interregional Research Project Number 4 (IR-4) requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA).

DATES: This regulation is effective December 5, 2024. Objections and requests for hearings must be received on or before February 3, 2025 and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2023-0257, is available at <https://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room and the OPP Docket is (202) 566-1744. For the latest status information on EPA/DC services, docket access, visit <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Charles Smith, Director, Registration Division (7505T), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; main telephone number: (202) 566-1030; email address: RDfrNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following

list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of EPA's tolerance regulations at 40 CFR part 180 through the Office of the Federal Register's e-CFR site at <https://www.ecfr.gov/current/title-40>.

C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a(g), any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA-HQ-OPP-2023-0257 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing and must be received by the Hearing Clerk on or before February 3, 2025.

The EPA's Office of Administrative Law Judges (OALJ), in which the Hearing Clerk is housed, urges parties to file and serve documents by electronic means only, notwithstanding any other particular requirements set forth in other procedural rules governing those proceedings. See "Revised Order Urging Electronic Filing and Service," dated June 22, 2023, which can be found at <https://www.epa.gov/system/files/documents/2023-06/2023-06-22%20-%20revised%20order%20urging%20electronic%20filing%20and%20service.pdf>. Although the EPA's regulations require submission via U.S. Mail or hand delivery, the EPA intends to treat submissions filed via electronic means as properly filed submissions; therefore, the EPA believes the preference for submission via electronic means will not be prejudicial. When submitting documents to the OALJ electronically, a person should utilize the OALJ e-filing system at https://yosemite.epa.gov/OA/EAB/EAB-ALJ_upload.nsf.

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA-HQ-OPP-2023-0257, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <https://www.epa.gov/dockets/where-send-comments-epa-dockets>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, are available at <https://www.epa.gov/dockets>.

II. Summary of Petitioned-For Tolerance

In the **Federal Register** of October 26, 2023 (88 FR 73571) (FRL-10579-09-OCSPP), EPA issued a document pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP 3E9064) by IR-4, North Carolina State University, 1730 Varsity Drive, Venture IV, Suite 210, Raleigh, NC 27606. The petition requested to establish tolerances in 40 CFR 180.601 for residues of the fungicide cyazofamid, including its metabolites and degradates, in or on the following raw agricultural commodities: Chick pea, edible podded at 0.5 ppm; Chick pea, succulent shelled at 0.08 ppm; Edible podded bean subgroup 6-22A at 0.5 ppm; Parsnip root at 0.09 ppm; Pulses, dried shelled bean, except soybean, subgroup 6-22E at 0.03 ppm; and Succulent shelled bean subgroup 6-22C at 0.08 ppm. The petition also proposed to remove established tolerances for residues of cyazofamid in or on the following: Bean, succulent at 0.5 ppm and Bean, succulent shelled at 0.08 ppm.

EPA has modified some of the commodity definitions to be consistent with Agency nomenclature, but the
