SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau is implementing an electronic Decennial Census Temporary, Intermittent Applicant Information Collection to gather information from job seekers needed to fill temporary, intermittent Decennial Census Program positions, starting with the 2026 Census Test. Questions used to qualify and select applicants for positions are in the *job application information* section of the collection. This section collects Social Security number, date of birth, contact information, citizenship status, selective service and veteran's preference status and documentation, Federal employment/annuity status, access to transportation, hours of availability and related job experience. The *supplemental voluntary applicant information* section includes questions found on the Equal Employment Opportunity Commission's (EEOC's) common use form 3046-0046, Demographic Information on Applicants for Federal Employment, developed to support EEOC Management Directive (MD) 715-1. The voluntary questions also include recruiting source and education questions to help improve future recruiting efforts.

This collection gathers basic information needed for all temporary, intermittent decennial positions, streamlining the application process for both the applicant and the Census Bureau, by allowing applicants to be considered for several positions with one set of application data. To further evaluate each applicant's fit for positions, after completing the Decennial Census Temporary, Intermittent Applicant Information Collection, applicants will answer position related assessment questions.

The Census Bureau discontinued a similar collection for the Current Surveys, Special Census, and Decennial Census Programs under OMB No. 0607-0139.

II. Method of Collection

Data will be gathered electronically in a system called, Decennial Administrative, Recruiting, Hiring, and Training System (DARHTS). Applicants will visit *census.gov*, click on a link to access the DARHTS, create an account and proceed to complete the *job application information*, the *supplemental voluntary applicant information*, and then the position specific assessment questionnaires. The

DARHTS system will create an electronic PDF output of the *job application information* questions and the applicant respondent's answers as a record. If the applicant respondent makes subsequent changes to their *job application information*, the system will create additional PDF documents for each change submission. Each PDF created will include the OMB clearance number and the expiration date.

The Census Bureau is not including for clearance an online Spanish version of DARHTS or paper versions of the *job application information* or *supplemental voluntary applicant information* for the three-year period covered by this request. The current collection does not require these job application alternatives. Subsequent renewals will include the Spanish and paper versions, when the collection is rolled out to Puerto Rico and remote parts of Alaska.
