

Comments of Canada (Oct. 15, 2024) at 2. The LCA, in a public submission, provided an email attaching a chain of recent communications with Transport Canada. That email chain confirms that three of the six U.S. vessels had been granted exemptions and that two of the remaining vessels had been determined not to need an exemption. See LCA Submission (Oct. 28, 2024) at 2–6. The LCA's late October submission indicated that the sixth vessel had not yet received a final determination, but the Commission understands that that vessel received an exemption in early November 2024. However, the exemptions are only temporary in nature, so the vessels will be in a similar precarious operating position when the exemptions expire.

The Commission notes that the exemption process, due both to the lateness of its availability and the seeming onerousness of its process, may have imposed negative effects on certain U.S. carriers. Accordingly, there are ongoing concerns with respect to specific elements of the above exemption determinations. Those issues will be pursued in the agency's longer-term chapter 421 investigation, which remains open. The Commission will continue to investigate these concerns and strongly encourages affected entities or anyone with relevant information to participate in the ongoing chapter 421 proceeding.

III. Closure of Investigation

For the above reasons, the Commission has closed its Investigation into Conditions Affecting United States Carriers in Connection with Canadian Ballast Water Regulation in the United States/Canada Great Lakes Trade, FMC–2024–0008, 89 FR 44979 (opened May 22, 2024).

By the Commission.

Dated: December 5, 2024.

David Eng,
Secretary.

BILLING CODE P

FEDERAL RESERVE SYSTEM

Privacy Act of 1974; System of Records

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, notice is given that the Board of Governors of the Federal Reserve System (Board) proposes to modify an existing system of records entitled BGFRS–25, “FRB—Multi-Rater Feedback Records.” The modified system of records, which will now be called “FRB—360 Assessment Records,” includes 360 Assessment questionnaires completed by the employee being evaluated and his or her evaluators, analyses of the questionnaires, and associated feedback reports.

DATES: Comments must be received on or before January 9, 2025. This modified system of records will become effective January 9, 2025, without further notice, unless comments dictate otherwise.

The Office of Management and Budget (OMB), which has oversight responsibility under the Privacy Act, requires a 30-day period prior to publication in the **Federal Register** in which to review the system and to provide any comments to the agency. The public is then given a 30-day period in which to comment, in accordance with 5 U.S.C. 552a(e)(4) and (11).

ADDRESSES: You may submit comments, identified by *BGFRS–25 “FRB–360 Assessment Records,”* by any of the following methods:

- *Agency Website:* <https://www.federalreserve.gov>. Follow the instructions for submitting comments at <https://www.federalreserve.gov/apps/foia/proposedregs.aspx>.

- *Email:* regs.comments@federalreserve.gov. Include SORN name and number in the subject line of the message.

- *Fax:* (202) 452–3819 or (202) 452–3102.

- *Mail:* Ann E. Misback, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551.

In general, all public comments will be made available on the Board's website at <https://www.federalreserve.gov/generalinfo/foia/ProposedRegs.cfm> as submitted, and will not be modified to remove confidential, contact or any identifiable information. Public comments may also be viewed electronically or in paper in Room M–4365A, 2001 C St. NW, Washington, DC 20551, between 9:00 a.m. and 5:00 p.m. during federal business weekdays.

FOR FURTHER INFORMATION CONTACT: Alye Foster, Associate General Counsel, (202)

For users of telephone systems via text telephone (TTY) or any TTY-based Telecommunications Relay Services, please call 711 from any telephone anywhere in the United States.

SUPPLEMENTARY INFORMATION: The Board proposes to modify BGFRS-25 to reflect a change in the system name, changes to the contractors selected to conduct 360 Assessments, and to update the record schedule. The Board is modifying this system of records to reflect a change in the system name from BGFRS-25, “FRB—Multi-Rater Feedback Records” to “FRB—360 Assessment Records,” to better reflect the records contained in the system. The Board has also changed the contractors the Board has selected to conduct 360 Assessments and is updating the system accordingly. In addition, the Board is updating the record retention schedule that applies to the records. Rather than retaining the records for four years, the Board will now retain records until the record is superseded, one year after the evaluated employee separates from employment, or three years—whichever occurs first. To reflect these changes, the Board is updating the system name, system location, the practices for retrieval, and the practices for retention and disposal. In addition, the Board is also updating the system manager information, adding a link to the Board’s general routine uses and updating the administrative, technical, and physical safeguards. The Board is not amending or establishing any new routine uses.

The Board is also making technical changes to BGFRS-25 consistent with the template laid out in OMB Circular No. A-108. Accordingly, the Board has made technical corrections and non-substantive language revisions to the following categories: “Policies and Practices for Storage of Records,” “Policies and Practices for Retrieval of Records,” “Policies and Practices for Retention and Disposal of Records,” “Administrative, Technical and Physical Safeguards,” “Record Access Procedures,” “Contesting Record Procedures,” and “Notification Procedures.” The Board has also created the following new fields: “Security Classification” and “History.”

PURPOSE(S) OF THE SYSTEM:

These records are collected and maintained to assist the Board in administering its personnel functions

and improving the management skills of its employees.

Information is provided by the individual being evaluated and his or her evaluators.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

General routine uses A, C, D, F, G, H, I, and J apply to this system. These general routine uses are located at <https://www.federalreserve.gov/files/SORN-page-general-routine-uses-of-board-systems-of-records.pdf> and are published in the **Federal Register** at 83 FR 43872 at 43873-74 (August 28, 2018). ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Paper records are secured by lock and key and electronic files are stored on secure servers. The system has the ability to track individual user actions within the system. The audit and accountability controls are based on National Institute of Standards and Technology (NIST) and Board standards, which, in turn, are based on applicable laws and regulations. The controls assist in detecting security violations and performance or other issues in the system. Access to the system is restricted to authorized users within the Board who require access for official business purposes. Users are classified into different roles and common access and usage rights are established for each role. User roles are used to delineate between the different types of access requirements such that users are restricted to data that is required in the performance of their duties. Periodic assessments and reviews are conducted to determine whether users still require access, have the appropriate role, and whether there have been any unauthorized changes.
