

disposition. The NRC does not expect significant radiological or non-radiological impacts from approval of the proposed action, and impacts would remain bounded by the impacts assessed in the NRC’s 2015 EA for the expansion of the facility. Occupational dose estimates associated with the proposed action would continue to be as low as reasonably achievable and fall

within the limits identified in 10 CFR 20.1201. Approval of the proposed action is not expected to result in measurable radiation exposure to a member of the public. Therefore, the NRC staff has determined that, pursuant to 10 CFR 51.31, preparation of an environmental impact statement is not required for this proposed action, and pursuant to 10 CFR 51.32, a finding of

no significant impact is appropriate. In accordance with 10 CFR 51.32(a)(4), this FONSI incorporates the EA summarized in this notice by reference.

- I. Introduction
- II. Public Proceeding(s)
- III. Summary Proceeding(s)

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to Competitive negotiated service agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.
