Title: International Traveler Information Card.

Form Numbers: There are no FAA forms associated with this information collection.

Type of Review: New information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 1, 2024 (89 FR 35298). The International Traveler Information Card (ITIC) is an electronic form that FAA employees and contractors will complete prior to international travel on official business. The purpose of the form is to collect pertinent data to be used in the event a FAA employee and/or contractor are isolated overseas and require lifesaving assistance. This data will assist in the government's ability to properly identify individuals and provide, if necessary, medical support and personal items to FAA employees and contractors should they be isolated overseas.

The authority for this collection resides in Presidential Policy Directive (PPD)/PPD-30, 22 U.S.C. 4802 and 22 U.S.C. 3927. The duty of an agency with employees in foreign countries is to ensure they fully comply with all applicable directives of the Chief of Mission. In order to protect FAA personnel on official duty abroad, the ITIC documents the Personally Identifiable Information (PII) of FAA employees and contractors to help aid in their authentication and recovery. The ITIC requests the following PII: Name, Date of Birth, Gender, Height, Weight, Hair and Eye Color, Clothing and Shoe Size, Race/Ethnic Group, Blood Type, Scars/Marks/Tattoos, Known Medical Conditions, Current Medical Prescriptions, Allergies, Contact Information, Specialized Training, Language(s) Spoken, as well as information about their Emergency Contact. The traveler will also create a

Duress Word and Personal Authenticator Statements to aid in the identification.

This information will not be available to the public, and will be managed in accordance with applicable Records Management and Privacy Act policies. Only two International Travel Security Program Managers and the Senior Watch Officer of the Washington Operations Center can retrieve ITICs to aid employees and/or contractors during an isolating event, as determined by the Chief of Mission. The Chief of Mission, relying on situational factors, will make the ultimate decision on who this information is shared with, such as, but not limited to, the Department of Defense, in the event of a personnel recovery event.

Respondents: The FAA estimates that there will be 35 respondents based on the average number of contractors who travelled internationally on official business in fiscal years 2023-2024.

Frequency: As needed.

Estimated Average Burden per

Response: 0.5 hours.

Estimated Total Annual Burden: 17.5 hours for all responses.

Issued in Washington, DC, on November 8, 2024.

Michelle Salter,

Executive Director, FAA, Office of Investigations and Professional Responsibility.

ACTION: Federal Register Notice.

SUMMARY: This action announces April 1, 2025, as the deadline for each airport sponsor to notify the FAA if it will use its Fiscal Year (FY) 2025 entitlement funds (referred to as apportionments) to accomplish Airport Improvement Program (AIP) eligible projects. Each sponsor has previously identified to the FAA such projects through the Airports Capital Improvement Plan (ACIP) process. This action also announces April 28, 2025, as the deadline for an airport sponsor to submit a final grant

application, based on bids, for grants that will be funded with FY 2025 entitlement funds only.

Therefore, the FAA is hereby notifying such airport sponsors of the steps required to ensure that the FAA has sufficient time to carry over and convert remaining entitlement funds.

This notice applies only to sponsors of airports that have entitlement funds appropriated for FY 2025 to use on eligible and justified projects. An airport sponsor intending to apply any of its available entitlement funds, including those unused, but still available in accordance with 49 U.S.C. 47117 from prior years, must notify the FAA of its intent to submit a grant application by 12:00 p.m. prevailing local time on April 1, 2025.

This notice must be in writing and stipulate the total amount the sponsor intends to use for eligible and justified projects during FY 2025, including those entitlement funds not obligated from prior years that remain available in accordance with 49 U.S.C. 47117 (also known as protected carryover).
