Abstract: This ICR covers reporting and recordkeeping requirements associated with EPA's workplace standards for the protection of state and local government employees who work with asbestos and who are not covered by a state plan approved by the Occupational Safety and Health Administration. Currently, some 23 states and state equivalent territories have reporting and recordkeeping requirements under the Toxic Substances Control Act, Section 8, documenting worker protection actions for state and local government employees involved in asbestos work. EPA's asbestos work protection regulations incorporate, by reference, the OSHA Construction Industry Standard for Asbestos, and the General Industry Standard for Asbestos. EPA does not collect any information under this collection. All information subject to this collection request is to be gathered and maintained by the employer.

Form number(s): None.

Respondents/affected entities: Public Administration, Educational Services. North American Industrial Classification System (NAICS) codes identified in question 12 of the ICR.

Respondent's obligation to respond: Mandatory. (15 U.S.C 2605, 2607(a)).

Estimated number of respondents: 34,138 (total).

Frequency of response: On occasion.

Total estimated burden: 358,049 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$21,175,968 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a decrease of 14,920 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This change, which is discussed in more detail in the ICR, reflects a decrease in the number of states subject to the rule. This change is an adjustment.

Director, Information Engagement Division.
