This notice is being published less than 15 days from the meetings' dates due to exceptional circumstances. The technical and scientific peer review of applications assigned to the above meetings must take place urgently so that review evaluations of biomedical research applications addressing multiple major public health priorities, including women's health research, may be submitted to the national advisory councils to make timely funding recommendations. If the meetings are not held on the December 13, 2024 and December 18, 2024 dates, committee members with the requisite scientific expertise will be unable to attend due to unresolvable scheduling conflicts. The result would be a 6–9 month delay in funding and a profound negative impact on health-related research.
