Certain Epoxy Resins From the Republic of Korea: Amended Preliminary Determination of Less-Than-Fair-Value Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) is amending its preliminary affirmative determination in the less-than-fair-value (LTFV) investigation of certain epoxy resins (epoxy resins) from the Republic of

Korea (Korea) to correct for a significant ministerial error. The period of investigation (POI) is April 1, 2023, through March 31, 2024.

DATES: Applicable December 13, 2024.

FOR FURTHER INFORMATION CONTACT: Joy Zhang or Laura Delgado, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1168 or (202) 482–1468, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 13, 2024, Commerce published in the **Federal Register** its preliminary affirmative determination in the LTFV investigation of epoxy resins from Korea.¹ On November 18, 2024, a mandatory respondent, Kumho P&B Chemicals (Kumho P&B), timely alleged that Commerce made a significant ministerial error in calculating its estimated weighted-average dumping margin.²

Scope of the Investigation

The products covered by this investigation are epoxy resins from Korea. For a complete description of the scope of this investigation, see the Appendix.

Legal Framework

A ministerial error is defined as including “errors in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which {Commerce} considers ministerial.”³ A ministerial error is considered to be “significant” if its correction, either singly or in combination with other errors, would result in: (1) a change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin calculated in the preliminary determination; or (2) a difference between a weighted-average dumping margin of zero (or *de minimis*) and a weighted-average dumping
