Based on the information provided to BOEM in the unsolicited lease application from Hecate Energy and the response to the RFCI from Invenergy, BOEM finds that both qualified entities have submitted all the information that is required by the Department regulations (30 CFR 585.231); therefore, BOEM finds there is competitive interest in WEA options C and D. As a result of this finding, BOEM will move forward with the competitive lease issuance process following the procedures set forth in 30 CFR 585.210 through 585.226, including holding the next competitive lease sale in the Gulf of Mexico as soon as 2026.
