FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meetings

TIME AND DATE: 10:00 a.m. on December 17, 2024.

PLACE: This Board meeting will be open to public observation only by webcast. Visit <https://www.fdic.gov/news/board-matters/video.html> for a link to the webcast. FDIC Board Members and staff will participate from FDIC Headquarters, 550 17th Street NW, Washington, DC.

Observers requiring auxiliary aids (e.g., sign language interpretation) for this meeting should email DisabilityProgram@fdic.gov to make necessary arrangements.

STATUS: Open to public observation via webcast.

MATTERS TO BE CONSIDERED: The Federal Deposit Insurance Corporation's Board of Directors will meet to consider the following matters:

Discussion Agenda

Proposed 2025 FDIC Operating Budget.

Discussion Draft relating to FDIC Policy regarding the Annunzio-Wylie Anti-Money Laundering Act.

Discussion Draft relating to FDIC Policy on Bank Capital Distributions in Unusual and Exigent Circumstances.

Summary Agenda

No substantive discussion of the following items is anticipated. The Board will resolve these matters with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Minutes of a Board of Directors' Meeting Previously Distributed.

Summary reports, status reports, and reports of actions taken pursuant to authority delegated by the Board of Directors.

CONTACT PERSON FOR MORE INFORMATION:

Direct requests for further information concerning the meeting to Debra A. Decker, Executive Secretary of the Corporation, at 202-898-8748.

Authority: 5 U.S.C. 552b

Dated at Washington, DC, on December 10, 2024.

Federal Deposit Insurance Corporation.

James P. Sheesley,

Assistant Executive Secretary.

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (Act) (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the applications are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at <https://www.federalreserve.gov/foia/request.htm>. Interested persons may express their views in writing on the standards enumerated in paragraph 7 of the Act.

Comments received are subject to public disclosure. In general, comments received will be made available without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would not be appropriate for public disclosure.

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Ann E. Misback, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551-0001, not later than December 30, 2024.

A. Federal Reserve Bank of Chicago (Colette A. Fried, Assistant Vice President) 230 South LaSalle Street, Chicago, Illinois 60690-1414.

BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-25-24GO]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Formative Research on Adverse and positive childhood experiences, social determinants of health, and health equity among young adults in the US” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on July 19, 2024 to obtain comments from the public and affected agencies. CDC received 17 non-substantive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Formative Research on Adverse and Positive Childhood Experiences, Social Determinants of Health, and Health Equity Among Young Adults in the US—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC requests OMB approval for a new data collection titled Formative research on adverse and positive childhood experiences, social determinants of health, and health equity among young adults in the US. This study will help CDC to better understand the relationship between adverse childhood experiences (ACEs), positive childhood experiences (PCEs), social determinants of health (SDOH), and health outcomes among young adults from populations that have been socially and economically marginalized. This is a group at high risk for experiencing childhood adversity and has been historically underrepresented in research studies.

CDC is seeking approval from OMB to conduct a one-time information collection effort, with data collection occurring over a 12-month period. The

study will include 6,000 young adults ages 18 to 24 living in the United States. Primary data collection in English and Spanish, via a probability-based web panel survey, will obtain new data on retrospective assessments of ACEs and other potentially traumatic experiences, PCEs, SDOHs, and health and violence outcomes. Sampling frameworks will be designed to ensure overrepresentation of some populations that are disproportionately impacted by ACEs as well as underrepresented in research and violence prevention programming, including individuals with disabilities; individuals from racial and ethnic minority groups; and individuals who identify as sexual or gender minority.

This project expands the existing evidence base and addresses several gaps in extant data collection systems in the following three ways:

First, this study expands how ACEs are measured. Traditional ACEs research has measured eight to ten highly interconnected, household-level childhood stressors. These include sexual abuse, physical abuse, emotional abuse, emotional neglect, physical neglect, witnessing intimate partner violence, parent separation/divorce, and living in a home with exposure to mental illness, substance misuse, and incarceration (hereafter referred to as traditional ACEs). However, most ACE research does not account for a wide array of other potentially traumatic experiences that can exist across all levels of the social ecology, including stressors that uniquely impact populations that are socially and economically marginalized (e.g., fear of deportation; experiences of transphobia; exposure to neighborhood or community violence). These potentially traumatic experiences may have an additive or multiplicative effect on risk for poor outcomes or may have a greater effect on risk relative to the conventional ACEs categories.

Second, this study will create a diverse sample which is statistically powered to answer questions on how to prevent ACEs and mitigate the impact of specific and cumulative ACE exposures among communities that have been traditionally socially and economically marginalized. Most samples used in prior surveillance and research studies do not sufficiently oversample underrepresented communities to allow for disaggregation of results by sub-group. Thus, there is a need for data samples that allow for disaggregated analysis and results.

Third, this study will link individual level data to community-level variables. While ACEs are individual experiences, they are influenced by the contexts in
