

Additional Opportunities for Engagement

Tribal Engagement

Any government-to-government consultations with affected federally recognized Indian Tribes will be conducted in a manner appropriate to such consultations, respectful of Tribal sovereignty and consistent with the ongoing trust responsibility between the United States and Tribes.

Regional Entity Engagement

Pursuant to FPA section 216(a)(3), DOE will consult with regional entities during Phase 3.

IV. Request for Comments

DOE specifically requests recommendations and comments on the contents of the public engagement framework, including topics such as: the number, location, and format of public meetings; preferred day of week or time of day for such engagements; and identifying existing forums for engaging with interested or potentially affected stakeholders.

DOE additionally requests recommendations and comments on methods of outreach, including topics such as: names of any specific entities, such as community-based organizations, that should be included in or contacted directly as part of public engagement; and appropriate local news outlets, newspapers, and other news and media outlets for reaching interested or potentially affected stakeholders.

DOE additionally seeks suggestions on how to organize group meetings if all individual meeting requests cannot be accommodated, including topics around which meetings should be organized.

DOE invites suggestions on environmental, cultural, or socioeconomic considerations or potential effects that DOE should consider during its review and analysis of its potential NIETC designations, including comments on whether any potential effects can be meaningfully evaluated. DOE additionally seeks input on whether each potential NIETC maximizes existing rights-of-way and avoids and minimizes, to the maximum extent practicable, and offsets to the extent appropriate and practicable, sensitive environmental areas and cultural heritage sites (FPA section 216(a)(4)(G)). Commenters are encouraged to submit only non-sensitive information necessary to sufficiently inform potential NIETC designations and avoid submitting any potentially sensitive data. If DOE determines that additional information is needed to support NIETC designation, DOE will

contact the commenter directly to request that data.

For all of the previous topics, DOE encourages general recommendations and comments, which interested parties should submit under the docket number in which this notice has been posted, as well as recommendations and comments specific to the circumstances of individual potential NIETCs, which interested parties should submit under the relevant docket number: DOE-HQ-2024-0088-Potential Designation of the Tribal Energy Access National Interest Electric Transmission Corridor; DOE-HQ-2024-0089-Potential Designation of the Southwestern Grid Connector National Interest Electric Transmission Corridor; DOE-HQ-2024-0090-Potential Designation of the Lake Erie-Canada National Interest Electric Transmission Corridor.
