## AGENCY FOR INTERNATIONAL DEVELOPMENT

### USAID Injury/Illness Collection Form per the USAID Occupational Safety & Health (OHS) Program

**AGENCY:** Agency for International Development (USAID).

**ACTION:** Notice of information collection.

**SUMMARY:** In accordance with the Information Collection Review procedures of the Paperwork Reduction Act of 1995 (PRA), the United States Agency for International Development (USAID), is announcing that it has submitted a request to the Office of Management and Budget (OMB) for approval to collect information via Google Forms as per the USAID Occupational Safety & Health (OHS) program. This collection is mandated by the Occupational Safety and Health Administration under the OSH act of 1970 and Federal regulation.

**DATES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain).

Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**ADDRESSES:** Comments may be submitted by any of the following methods:

*Mail, Hand Delivery, or Courier:* USAID, Bureau for Management, Office of Management Policy, Budget, and Performance (M/MPBP), 500 D St. SW, Washington, DC 20547.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information should be directed to John Scherer, [jscherer@usaid.gov](mailto:jscherer@usaid.gov), +1 (202) 712 1256.

**SUPPLEMENTARY INFORMATION:** The OSH Act of 1970 requires the Secretary of

Labor to produce regulations that require employers to keep records of occupational deaths, injuries, and illnesses. Executive Order 12196 requires Federal establishments to, “Operate an occupational safety and health management information system, which shall include the maintenance of such records as the Secretary may require.”

The records are used for several purposes. Employers and employees use the records to implement safety and health programs at individual workplaces. Analysis of the data is a widely recognized method for discovering workplace safety and health problems and tracking progress in solving those problems. OSHA uses the injury and illness statistics to help direct its programs and measure its own performance. Also, individuals conducting safety and health evaluations and inspections use the data to help direct their efforts to the hazards that are hurting workers.

The rule, 29 CFR 1960.66, contains a “note” making it clear that recording or reporting a work-related injury, illness, or fatality does not constitute an admission that the Federal agency or an individual was at fault or otherwise responsible for purposes of liability. Such recording or reporting does not constitute an admission of the existence of an employer-employee relationship between the individual recording the injury and the injured individual. Recording or reporting any such injury, illness, or fatality does not mean that an OSHA rule has been violated or that the individual in question is eligible for workers’ compensation or any other benefits.

## AGENCY FOR INTERNATIONAL DEVELOPMENT

### Agency Information Collection Activities: Submission to the Office of Management and Budget for Review and Approval; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

**AGENCY:** U.S. Agency for International Development (USAID).

**ACTION:** Notice of information collection; request for comment.

**SUMMARY:** In accordance with the Information Collection Review procedures of the Paperwork Reduction Act of 1995 (PRA), the United States Agency for International Development (USAID), is seeking comment on the proposed Generic Clearance for the Collection of Qualitative Customer Feedback on Agency Service Delivery. The Agency will use surveys and forms for routine customer feedback to collect, analyze, and interpret information gathered through this generic clearance to identify strengths and weaknesses of the current services, information, and to make improvements in customer service.

**DATES:** All comments should be submitted within 30 calendar days from the date of this publication.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information should be directed to Kelly Hamilton at 202–921–5016, [icrteam@usaid.gov](mailto:icrteam@usaid.gov).

**SUPPLEMENTARY INFORMATION:** Pursuant to the PRA, the Agency is publishing this Notice to inform the public that the Agency will submit this proposed collection to the Office of Management and Budget (OMB) for approval. The Agency previously published this proposed information collection in the **Federal Register** on October 31, 2023 (88 FR 74401) with a 60-day comment period. The proposed information collection activity provides a means to

garner qualitative customer and stakeholder feedback in an efficient, timely manner. By qualitative feedback we mean information that provides useful insights into perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The Agency will collect, analyze, and interpret information gathered through this generic clearance to identify strengths and weaknesses of the current services, information, and make improvements in service delivery based on feedback. The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, procedures outlined in Question 16 will be followed);

- Information gathered will not be used for the purpose of substantially informing influential policy decisions;
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study;

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;

- The collections are non-controversial and do not raise issues of concern to other Federal agencies;

- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future; and

- With the exception of information needed to provide remunerations for participants of focus groups and cognitive laboratory studies, personally identifiable information (PII) is collected only to the extent necessary and is not retained.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

The projected average annual burden estimates for the next three years are listed below. The burdens have been increased from the 60-day notice amounts due to internal agency discussions on expected needs.

*Estimated Annual Number of Respondents:* 200,000.

*Responses per Respondent:* 1.

*Annual Responses:* 200,000.

*Average Minutes per Response:* 15 minutes.

*Annual Burden Hours:* 50,000 hours.

*Frequency:* On occasion.

Dated: December 16, 2024.
