The proposed sale will replace Greece's current multi-role helicopter fleet with a more reliable and proven system that will allow Greece to maintain the appropriate level of readiness to conduct combined operations. The UH-60M Black Hawk helicopter will improve the Hellenic

Army's ability to deploy combat power to secure Greece's borders, deter actions against its interests, and, when required, respond with credible force. Greece will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Sikorsky, a Lockheed Martin Company, Stratford, CT. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately fifteen (15) U.S. Government and/or fifteen (15) contractor representatives to travel to Greece for an extended period for equipment de-processing/fielding, system checkout, training, and technical and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
