POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States—Command, Control, Communications, and Computers (C4) Life Cycle Support

The Taipei Economic and Cultural Representative Office in the United States (U.S.) (TECRO) has requested to buy follow-on life cycle support to maintain Command, Control, Communications, and Computers (C4) capabilities managed under the Syun An program. The C4 capabilities consisting of previously procured Multifunctional Information Distribution Systems-Low Volume Terminals (MIDS-LVT) and Joint Tactical Information Distribution System (JTIDS) equipment, as well as procurement of spare and repair parts; repair and return of equipment; technical documentation; personnel training; software and hardware; software development; maintenance of Continental United States (CONUS)

technical laboratories; U.S. Government and contract engineering and technical support; logistics; and other related elements of logistics and program support. The estimated total cost is \$300 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability to meet current and future threats by enhancing operational readiness and maintenance of its existing C4 capabilities and sustaining capabilities that provide secure flow of tactical information required for the development of a Joint Common Operation Picture. The recipient will have no difficulty absorbing this support and equipment into its inventory.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor(s) will be determined through U.S. Government competitive processes. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require an estimated twenty-six (26) U.S. Government personnel and eighty-three (83) U.S. contractor representatives to travel to the recipient, as required, to provide engineering and

technical support services as well as program and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

(viii) *Date Report Delivered to Congress:* December 15, 2023

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Japan—AIM–120C–8 Advanced Medium-Range Air-to-Air Missiles (AMRAAM)

The Government of Japan has requested to buy one hundred twenty (120) AIM–120C–8 Advanced Medium-Range Air-to-Air Missiles (AMRAAM); and three (3) AIM–120C–8 guidance sections. Also included are AIM–120 Captive Air Training Missiles (CATM), missile containers, and control section spares; Common Munitions Built-in-Test Reprogramming Equipment (CMBRE); ADU–891 Adapter Group Test Sets; munitions support and support equipment; spare and repair parts, consumables, and accessories; and repair and return support; contract logistics support (CLS); classified software delivery and support; classified/unclassified publications and technical documentation; studies and surveys; U.S. Government and contractor engineering, technical and logistical support services; and other related elements of logistics and program support. The estimated total cost is \$224 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a major ally that is a force for political stability and economic progress in the Indo-Pacific region.

The proposed sale will improve Japan's capability to meet current and future threats by defending its

homeland and U.S. personnel stationed there. The proposed sale is Japan's Calendar Year 2023 annual purchase of AMRAAMs. Japan will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–03

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM–120C–8 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air-launched, aerial intercept, guided missile featuring digital technology and micro-miniature, solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high- and low-flying and maneuvering targets.

2. The Common Munitions Built-In-Test (BIT)/Reprogramming Equipment (CMBRE) is support equipment used to interface with weapon systems to initiate and report BIT results, and upload/download flight software. CMBRE supports multiple munitions platforms with a range of applications that perform preflight checks, periodic maintenance checks, loading of Operational Flight Program (OFP) data, loading of munitions mission planning data, loading of Global Positioning System (GPS) cryptographic keys, and declassification of munitions memory.

3. The ADU–891 Adapter Group Test Set provides the physical and electrical interface between the Common Munitions Built-in-Test Reprogramming Equipment (CMBRE) and the missile.

4. The highest level of classification of defense articles, components, and

services included in this potential sale is SECRET.

5. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

6. A determination has been made that Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

7. All defense articles and services listed in this transmittal have been authorized for release and export to Japan.
