#### SUPPLEMENTARY INFORMATION:

##### Background

Under the regulations in “Subpart L–Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS proposes to authorize the importation of a fruit or vegetable into the United States if, based on findings of a pest risk analysis, we determine that the measures can mitigate the plant pest risk associated with the importation of that fruit or vegetable. APHIS then publishes a notice in the **Federal Register** announcing the availability of the pest risk analysis that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS will issue a subsequent **Federal Register** notice announcing whether or not we will authorize the importation of the fruit or vegetable subject to the phytosanitary measures specified in the notice.

In accordance with that process, we published a notice<sup>1</sup> in the **Federal Register** on April 4, 2024 (89 FR 23537, Docket No. APHIS–2023–0040) in which we announced the availability, for review and comment, of pest risk analyses that evaluated the risks associated with the importation of fresh leaves and stems of rosemary (*Rosmarinus officinalis*) and fresh leaves and stems of tarragon (*Artemisia dracuncululus*) from Ethiopia into the continental United States. The pest risk analyses consisted of risk assessments identifying pests of quarantine significance that could follow the pathway of the importation of fresh leaves and stems of rosemary and

tarragon into the continental United States from Ethiopia and risk management documents (RMDs) identifying phytosanitary measures to be applied to these commodities to mitigate the pest risk.

We solicited comments on the notice for 60 days, ending on June 3, 2024. We received no comments by that date.

Therefore, in accordance with § 319.56–4(c)(3)(iii), we are announcing our decision to authorize the importation into the continental United States of fresh leaves and stems of rosemary and fresh leaves and stems of tarragon from Ethiopia subject to the phytosanitary measures identified in the RMDs that accompanied the initial notice.

These conditions will be listed in the U.S. Department of Agriculture, APHIS Agricultural Commodity Import Requirements (ACIR) database (<https://acir.aphis.usda.gov/s/>).<sup>2</sup> In addition to these specific measures, each shipment must be subject to the general requirements listed in § 319.56–3 that are applicable to the importation of all fruits and vegetables.

##### Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the recordkeeping and burden requirements associated with this action are included under the Office of Management and Budget control number 0579–0049.

##### E-Government Act Compliance

The Animal and Plant Health Inspection Service is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes. For information pertinent to E-Government Act compliance related to this notice, please contact Mr. Joseph Moxey, APHIS’ Paperwork Reduction Act Coordinator, at (301) 851–2533.

*Authority:* 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 16th day of December 2024.

**Michael Watson,**

*Administrator, Animal and Plant Health Inspection Service.*

## DEPARTMENT OF AGRICULTURE

### Food Safety and Inspection Service

[Docket No. FSIS–2024–0024]

#### National Advisory Committee on Microbiological Criteria for Foods; Membership Nominations

**AGENCY:** Food Safety and Inspection Service (FSIS), U.S. Department of Agriculture (USDA).

**ACTION:** Notice; soliciting nominations.

**SUMMARY:** Pursuant to the provisions of the rules and regulations of the USDA and the Federal Advisory Committee Act (FACA), the USDA is soliciting nominations for membership on the National Advisory Committee on Microbiological Criteria for Foods (NACMCF) and announcing potential charges for the 2025–2027 term. USDA seeks to appoint 30 members. Advisory Committee members serve a two-year term beginning September 2025 through September 2027. Members may be reappointed for one additional consecutive term at the discretion of the Secretary of Agriculture.

**DATES:** All nomination packages must be received by February 18, 2025.

**ADDRESSES:** Nomination packages should be sent by email to [NACMCF@usda.gov](mailto:NACMCF@usda.gov), or mailed to: The Honorable Thomas Vilsack, Secretary, U.S. Department of Agriculture, 1400 Independence Avenue SW, Room 1128 South Building, Attn: Kristal Southern, Designated Federal Officer, FSIS\OPHS\National Advisory Committee on Microbiological Criteria for Foods, Washington, DC 20250.

*Docket:* For access to documents, call (202) 205–5046 to schedule a time to visit the FSIS Docket Room at 1400 Independence Avenue SW, Washington, DC 20250–3700.

**FOR FURTHER INFORMATION CONTACT:** Kristal Southern, Designated Federal Officer, by email to [NACMCF@usda.gov](mailto:NACMCF@usda.gov) or by telephone at 202–937–4162.

**SUPPLEMENTARY INFORMATION:** USDA is soliciting nominations for membership to the NACMCF. USDA seeks to appoint 30 members.

To obtain a scientific perspective that considers all stakeholders, USDA is seeking NACMCF nominees with scientific expertise in microbiology, risk assessment, public health, food science, and other relevant disciplines. USDA is seeking nominations for NACMCF from persons in academia, industry, and State governments, as well as all other interested persons with the required expertise.

All nominees will undergo a USDA background check. Advisory committee
