SUPPLEMENTARY INFORMATION:**I. Background**

DoD is establishing the "Military Corrections and Parole Board Records," DoD-0023, as a DoD-wide Privacy Act system of records. A DoD-wide system of records notice (SORN) supports multiple DoD paper or electronic recordkeeping systems operated by more than one DoD component that maintain the same kind of information about individuals for the same purpose. The establishment of DoD-wide SORNs helps DoD standardize the rules governing the collection, maintenance, use, and sharing of personal information in key areas across the enterprise. DoD-wide SORNs also reduce duplicative and overlapping SORNs published by separate DoD components. The creation of DoD-wide SORNs is expected to make locating relevant SORNs easier for DoD personnel and the public and create efficiencies in the operation of the DoD privacy program.

This system of records describes DoD's collection, use, and maintenance of records covering military Service

members confined for violation of the Uniform Code of Military Justice. These records include information on prisoner's confinement, health assessment, and disciplinary actions while in confinement, observations by confinement staff and United States probation officers, and confinement utilization assessments such as basis for correctional treatment and education programs. The records also include information used for clemency and parole decisions conducted by the military Departments' Clemency and Parole Boards. The DoD is also issuing a Notice of Proposed Rulemaking to exempt this system of records from certain provisions of the Privacy Act elsewhere in today's issue of the **Federal Register**.

DoD SORNs have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Privacy and Civil Liberties Directorate website at <https://dpcl.d.defense.gov/privacy>.
