SUPPLEMENTARY INFORMATION:

Background

GSA, in compliance with the FedRAMP Authorization Act of 2022 (the Act), established the FSCAC, a statutory advisory committee in accordance with the provisions of FACA, as amended (5 U.S.C. 1001 *et seq.*). The Federal Risk and Authorization Management Program (FedRAMP) within GSA is responsible for providing a standardized, reusable approach to security assessment and authorization for cloud computing products and services that process unclassified information used by agencies.

The FSCAC will provide advice and recommendations to the Administrator of GSA, the FedRAMP Board, and agencies on technical, financial, programmatic, and operational matters regarding the secure adoption of cloud computing products and services. The FSCAC will ensure effective and ongoing coordination of agency adoption, use, authorization, monitoring, acquisition, and security of cloud computing products and services to enable agency mission and administrative priorities. The purposes of the Committee are:

- To examine the operations of FedRAMP and determine ways that authorization processes can continuously be improved, including the following:
 - Measures to increase agency reuse of FedRAMP authorizations.
 - Proposed actions that can be adopted to reduce the burden, confusion, and cost associated with FedRAMP authorizations for cloud service providers.
 - Measures to increase the number of FedRAMP authorizations for cloud computing products and services offered by small businesses concerns (as defined by section 3(a) of the Small Business Act (15 U.S.C. 632(a)).
 - Proposed actions that can be adopted to reduce the burden and cost of FedRAMP authorizations for agencies.
 - Collect information and feedback on agency compliance with, and implementation of, FedRAMP requirements.
 - Serve as a forum that facilitates communication and collaboration among the FedRAMP stakeholder community.

The FSCAC will meet no fewer than three (3) times a calendar year. Meetings shall occur as frequently as needed, called, and approved by the DFO.

Purpose of the Meeting and Agenda

The February 26, 2025 public meeting will include two presentations by FedRAMP on their roadmap as well as commercial and federal framework reciprocity, and the meeting will also include several panel discussions on the topics of the current FedRAMP authorization process experience, the current state of Open Security Controls Assessment Language (OSCAL), and Federal framework reciprocity.

The February 27, 2025 public meeting will be dedicated to continued deliberations in order to finalize recommendations to the GSA Administrator on their initial two (2) priority initiatives of 1) identifying and documenting top challenges and proposing solutions around the barrier to entry for Cloud Service Providers (CSPs) with a focus on small businesses, third party assessment organizations (3PAOs), and small & large agencies, and 2) identifying and documenting ways to expedite the authorization process for Cloud Service Offerings (CSOs), such as exploring agile authorizations and other potential cost reductions, both labor and financial, with a focus on small businesses.

Additionally, the committee will begin deliberations to develop their initial recommendations on their last

two (2) priority initiatives of 3) identifying best practices and recommendations on how FedRAMP can make progress with commercial reciprocity using different security frameworks, and 4) identifying what is needed to support OSCAL adoption and if there are any barriers to OSCAL interoperability within the CSP and agency GRC ecosystem that need to be addressed.

Members of the public will have the opportunity to provide oral public comments during each meeting, and may also submit public comments in writing prior to this meeting by completing the public comment form on our website, <https://gsa.gov/fscac>.
