A. Program Description

1. *Purpose of the Program.* The TPEP will provide financial assistance through loan guarantees to lenders providing loans to entities seeking to establish, reopen, retrofit, expand, or improve a sawmill or other wood processing facility in close proximity to a unit of USFS National Forest System lands, including Indian forest land or rangeland, that has been identified as high or very high priority for ecological restoration if the presence of a sawmill or other wood-processing facility would substantially decrease or does substantially decrease the cost of conducting ecological restoration projects involving vegetation removal on the unit of land. These units of USFS National Forest System lands must be classified as being a high or very high

priority for ecological restoration involving vegetation removal, due to the risk of unnaturally severe wildfires, or insect or disease infestation. The Agency will consider a facility to be in close proximity of the requisite unit of land if it is within two hundred fifty (250) miles of the area identified as high or very high priority for ecological restoration. TPEP facilities will purchase and process byproducts from ecosystem restoration projects.

2. Statutory and Regulatory Authority:

The TPEP program is authorized by section 40804(d)(3)—Ecosystem Restoration—of the Infrastructure Investment and Jobs Act (Pub. L. 117–58) which directs USFS to provide financial assistance to entities seeking to establish, reopen, retrofit, expand, or improve a sawmill or other wood processing facility that is in close proximity to a unit of United States Forest Service (USFS) National Forest System lands, including Indian forest land or rangeland, that has been identified as high or very high priority for ecological restoration and that is using ecological byproducts from the unit of land. Further, the TPEP program is in response to White House Executive Order 14081 on advancing the domestic bioeconomy, the USDA report Building a Resilient Biomass Supply, (usda.gov/media/press-releases/2024/03/14/usda-outlines-vision-strengthen-american-bioeconomy-through-more), and the subsequent deliverables outlined in the report's Implementation Framework. The TPEP program is operating as a pilot program and will be administered under 7 CFR part 5001. TPEP is designed and implemented in a manner similar to the Business and Industry (B&I) Guaranteed loan program with minor changes to meet the needs of the timber industry. An interagency agreement between the USFS and RBCS will allow RBCS to implement the TPEP program in the interest of the USFS.

3. *Definitions.* The definitions applicable to this notice are published in 7 CFR 5001.3. For the purpose of this notice only:

(a) *Wood Processing Facility* means a facility that produces solid wood products (including lumber, posts and poles), engineered wood products (including plywood, veneer panels, and mass timber products), biomass energy products (heat, power, combined heat and power, and biochar), and fuel products (firewood, wood pellets, briquettes, and liquid biofuels).

(b) *High Priority for Ecological Restoration* means publicly owned USFS National Forest System lands, including Indian forest land or rangeland, that have been identified by

USFS as high risk for wildfire or insect or disease infestation. USDA Forest Service mapping can be found at www.arcgis.com/apps/dashboards/5d6d9d9922a8486f83d51d40835f1870.

4. *Application of Awards.* The Agency will review, evaluate, and score applications received in response to this notice based on the provisions found in 7 CFR part 5001 Subpart A as indicated in this notice. Awards under TPEP will be made on a first come, first served basis using specific selection criteria contained in 7 CFR part 5001. The Agency advises all interested parties that the applicant bears the full burden in preparing and submitting an application in response to this notice.

Many states have established a Single Point of Contact (SPOC) to facilitate this consultation. For a list of States that maintain a SPOC, please see the White House website: whitehouse.gov/omb/management/office-federal-financial-management/. If your State has a SPOC, you may submit a copy of the application directly for review. Any comments obtained through the SPOC must be provided to your State Office for consideration as part of your application. E. Application Review Information

1. *Criteria.* All eligible and complete applications will be evaluated and scored based on the selection criteria and weights contained in this notice and in 7 CFR 5001.318. Failure to address any of the application criteria will result in the application being determined ineligible, and the application will not be considered for funding.

In addition to the scoring criteria outlined in 7 CFR 5001.318, there will be an additional 10 points that may be awarded for projects that address wildfire risk reduction or that provide documented justification for the following RD key priority categories:

(a) Assisting rural communities recover economically through more and better market opportunities and through improved infrastructure. An applicant would receive priority points if the project is located in or serving a rural community whose economic well-being ranks in the most distressed tier (distress score of 80 or higher) of the

Distressed Communities Index using the Distressed Communities Look-Up Map available at www.rd.usda.gov/priority-points.

(b) Ensuring all rural residents have equitable access to RD programs and benefits from RD funded projects. Using the Social Vulnerability Index (SVI) Look-Up Map (available at www.rd.usda.gov/priority-points), an applicant would receive priority points if:

- The project is located in or serving a community with score 0.75 or above on the SVI;
- The applicant is a federally recognized Tribe, including Tribal instrumentalities and entities that are wholly owned by Tribes; or
- Is a project where at least 50 percent of the project beneficiaries are members of federally Recognized Tribes and non-Tribal applicants include a Tribal Resolution of Consent from the Tribe or Tribes (or other documentation of Consent consistent with the laws, procedures or practices of a Tribe or Tribes) that the applicant is proposing to serve.

• The application is from or benefiting a Rural Partner's Networks (RPN) community network. Currently, RPN networks exist in Alaska, Arizona, Georgia, Kentucky, Mississippi, Nevada, New Mexico, North Carolina, Puerto Rico, West Virginia, and Wisconsin. Use the Community Look-up map (available at www.rd.usda.gov/priority-points) to determine if your project qualifies for priority points.

(c) Reducing climate pollution and increasing resilience to the impacts of climate change through economic support to rural communities. Using the Disadvantaged Community and Energy Community Look-Up Map (available at www.rd.usda.gov/priority-points), applicants will receive priority in one of the three ways:

- If the project is located in or serves a Disadvantaged Community as defined by the Climate and Economic Justice Screening Tool (CEJST), from the White House Council on Environmental Quality;
- If the project is located in or serves an Energy Community as defined by the Inflation Reduction Act (IRA); and
- If applicants can demonstrate through a written narrative how the proposed climate-impact projects will improve the livelihoods of community residents and meet pollution mitigation or clean energy goals, including benefits calculated using the social cost of carbon estimates developed by the Environmental Protection Agency.

2. *Review and Selection Process.* The Agency will review each complete

application to make a formal determination as to the eligibility of the borrower, lender, project, and guaranteed loan purpose and proposed use of funds; whether there is a reasonable assurance of repayment ability; whether sufficient collateral and equity exists; and whether the proposed guaranteed loan complies with all applicable statutes and regulations. The Agency will comply with provisions in 7 CFR 5001.315, "Application evaluation and award provisions", for the review and selection process.

The Agency reserves the right to offer the applicant less than the funding requested.

I. Abstract

The Census Bureau plans to request clearance from the Office of Management and Budget (OMB) for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October Current Population Survey (CPS). The Census Bureau and the Bureau of Labor Statistics (BLS) sponsor the basic annual school enrollment questions, which have been collected annually in the CPS for over 50 years. The current clearance
