Before including your address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment—including any personally identifiable information—may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable

information from public review, we cannot guarantee that we will be able to do so.

Any comments regarding the proposed sale will be reviewed by the BLM LVFO Assistant Field Manager, Division of Lands, who may sustain, vacate, or modify this realty action in response to such comments. In the absence of any adverse comments, this realty action will become the final determination of the Department of the Interior. The use of the modified competitive sale method is consistent with 43 CFR 2711.3-2. Public lands may be offered for sale by modified competitive bidding procedures when the authorized officer determines it is necessary based on public policies. Consistent with Executive Order 14008, *Tackling the Climate Crisis at Home and Abroad*, utilizing an online (internet-based) auction format would maximize the opportunity for public involvement while reducing greenhouse gas emissions that would result from bidders traveling to Las Vegas. In addition, utilizing an online auction would encourage greater participation by qualified bidders.

The regulations at 43 CFR 2711.2 require that qualified conveyees (bidders) must be:

- (1) A citizen of the United States 18 years of age or older;
- (2) A corporation subject to the laws of any State or of the United States;
- (3) A State, State instrumentality, or political subdivision authorized to hold property; or
- (4) An entity legally capable of conveying and holding lands or interests therein under the laws of the State of Nevada.

The successful bidder must submit proof of citizenship or Articles of Incorporation within thirty (30) days from receipt of the Acceptance of Bid letter. Evidence of United States citizenship is a birth certificate, passport, or naturalization papers. Citizenship documents or Articles of Incorporation (as applicable) must be provided to the BLM LVFO for each sale.

The EnergyNet auction website is viewable by the public in real-time; however, you must register as a bidder with EnergyNet in advance to submit bids for a parcel during the auction. The online auction website will be active and available for use approximately ten (10) days after the date of this notice and will remain available for viewing until the completion of the auction. The available parcels in this notice will be listed in detail on the EnergyNet website. Interested parties may visit the website at any time.

Potential bidders are encouraged to visit the EnergyNet website at least ten (10) business days prior to the start of the open bidding period to review the bidding instructions available at https://www.energynet.com/page/Government_Listings_Participation. Supporting documentation is available on the EnergyNet website to familiarize users to the bidding process and answer frequently asked questions.

Potential bidders may register for the online auction as soon as the auction website is active. To participate in the BLM bidding process, you must register with EnergyNet and obtain a bidder number. Registration for online bidding will be available prior to the sale date on the EnergyNet website at https://www.EnergyNet.com/govt_listing.pl. Click on the orange "Register for Sale" button on the blue "BLM Nevada SNPLMA 11 Parcel Land Sale Winter 2025" banner to register. Then click on the light blue "View Listings" button on the "BLM Nevada SNPLMA 11 Parcel Land Sale Winter 2025" banner to obtain maps and get information on how to submit online bids via the internet for the sale. A submitted online internet bid is a binding offer to purchase.

To participate in this sale, prospective buyers must create an EnergyNet account, complete the EnergyNet Bidding Terms Agreement, request a bid allowance, and register for the BLM Nevada SNPLMA 11 Parcel Land Sale Winter 2025. EnergyNet may require approximately five (5) business days to determine the bidder's financial qualifications. Additional information on how to register with EnergyNet may be found at https://www.energynet.com/page/Government_Listings_Participation.

Assistance with creating an EnergyNet account and registering for the sale is available by contacting the EnergyNet Government Resources Department at 877-351-4488. Use the following link to create a Buyer's Account: https://www.EnergyNet.com/bidder_reg.pl?registration_choice=government. After the account is created, follow the link "Submit Bank Information Online" and fill in the form with the following information:

- Bank name;
- Banker's name;
- Telephone number of banker;
- Address of bank;
- Requested bid allowance amount.

EnergyNet will verify that the bank is an accredited financial institution and contact the bank to ensure the prospective buyer has the financial means to cover the requested bid allowance. The bidder must contact its

banker and grant permission for the banker to speak with EnergyNet about the bidder's bid allowance request. EnergyNet will not request the bidder's account balance nor ask any questions about assets or other lines of credit. EnergyNet will not request the bank account number, nor whether it can withdraw funds.

Payments to the BLM will not be made through EnergyNet. At the conclusion of the bidding period for the final parcel, the bidder with the highest accepted bid during the open auction period (winning bidder) for each parcel will be provided instructions via email by the online auction system on how to make the required payment to the BLM.

In addition, you will be required to pay a service fee to EnergyNet's broker of 1.5 percent of the highest qualifying bid for each parcel purchased by the successful bidder. EnergyNet will submit one invoice via email to each successful bidder for the total amount due to the BLM and a separate invoice for the amount due to EnergyNet's broker.

Bidding will begin at the established FMV of each parcel. Each parcel will have its own unique open bidding period, with start and stop times clearly identified on the auction website. The open bidding period for each parcel will run for 24 hours from start to finish, and only bids placed during this 24-hour period will be accepted. Bidding will close sequentially so that each bidder will know if it is the highest winning bid before subsequent parcels close. The website will display each current high bid, and the high bidder's number.

The online system allows participants to submit maximum bids, which is the highest amount a bidder is willing to pay for each parcel, to enable a bidder to participate in the online auction without having to be logged into the website at the time the auction period closes. The auction website provides a full explanation of placing maximum bids, as well as an explanation of how it works to place bids on your behalf to maintain your high bidder status up to the chosen maximum bid amount. The BLM strongly encourages potential bidders to review the bidding tutorial in the Frequently Asked Questions area on the auction website in advance of the sale. EnergyNet will declare the highest qualifying bid as the high bid. The successful bidder must submit a deposit of no less than 20 percent of the successful bid amount by 4:00 p.m. PT, immediately following the close of the sale, in the form of a certified check, postal money order, electronic fund transfer, bank draft, or cashier's check made payable in U.S. dollars to the

"Department of the Interior, Bureau of Land Management."

The BLM will send the successful bidder(s) an Acceptance of Bid letter with detailed information for making payment in full. In accordance with 43 CFR 2711.3-1(d), the successful bidder will forfeit the bid deposit if it fails to pay the full purchase price within 180 days of the sale. The BLM will make no exceptions. The BLM cannot accept the remainder of the bid price at any time following the 180th day after the sale.

If a bidder is the apparent successful bidder with respect to multiple parcels and that bidder fails to submit the minimum 20 percent bid deposit resulting in default on any single parcel following the sale, the BLM may cancel the sale of all parcels to that bidder. If a successful bidder cannot consummate the transaction for any reason, the BLM may consider the second highest bidder to purchase the parcel. If there are no acceptable bids, a parcel may remain available for sale on a future date without further legal notice.

The BLM LVFO must receive requests for escrow instructions a minimum of 30 business days prior to the prospective patentee's scheduled closing date. There are no exceptions.

All name changes and supporting documentation must be received at the BLM LVFO by 4:00 p.m. PT, 30 days from the date on the Acceptance of Bid letter. There are no exceptions. To submit a name change, the apparent successful bidder must submit the name change in writing on the Certificate of Eligibility form to the BLM LVFO.

The BLM must receive the remainder of the full bid price for the parcel no later than 4:00 p.m. PT, within 180 days following the day of the sale. The successful bidder must submit payment in the form of a certified check, postal money order, bank draft, cashier's check, or make available by electronic fund transfer payable in U.S. dollars to the "Department of the Interior—Bureau of Land Management" to the BLM LVFO. The BLM will not accept personal checks or other non-certified funds.

Arrangements for electronic fund transfer to the BLM for payment of the balance due must be made a minimum of two weeks prior to the payment date. The BLM will not sign any documents related to 1031 Exchange transactions. The bidder is responsible for timing for completion of such an exchange. The BLM cannot be a party to any 1031 Exchange.

In accordance with 43 CFR 2711.3-1(f), the BLM may accept or reject any or all offers to purchase or withdraw any parcel of land or interest therein

from sale within 30 days, if the BLM authorized officer determines consummation of the sale would be inconsistent with any law, or for other reasons as may be provided by applicable law or regulations. No contractual or other rights against the United States may accrue until the BLM officially accepts the offer to purchase and the full bid price is paid.

Per SNPLMA Section 4(c), lands identified within the Las Vegas Valley Disposal Boundary are withdrawn from location and entry under the mining laws and from operation under the mineral leasing and geothermal leasing laws until such time as the Secretary of the Interior (Secretary) terminates the withdrawal or the lands are patented.

Upon publication of this notice in the **Federal Register**, the described land will also be segregated from all forms of appropriation under the public land laws, including the mining laws, except for the sale provisions of FLPMA. Upon publication of this notice and until completion of this sale, the BLM will no longer accept land use applications affecting the parcels identified for sale. The parcels may be subject to land use applications received prior to publication of this notice if processing the application would have no adverse effect on the marketability of title or the FMV of the parcel. The segregative effect of this notice terminates upon issuance of a patent or other document of conveyance to such lands, or publication in the **Federal Register** of a termination of the segregation. The total segregation period may not exceed two years unless it is extended by the BLM Nevada State Director prior to the termination date in accordance with 43 CFR 2711.1–2(d).

Terms and Conditions: FLPMA Section 209, 43 U.S.C. 1719(a), states that “all conveyances of title issued by the Secretary . . . shall reserve to the United States all minerals in the lands.” Accordingly, the patents, when issued, will contain a mineral reservation to the United States for all minerals.

In response to requests to clarify this mineral reservation as it relates to mineral materials, such as sand and gravel, we refer interested parties to the regulations at 43 CFR 3601.71(b), which provides that the owner of the surface estate of lands with reserved Federal minerals may “use a minimal amount of mineral materials” for “personal use” within the boundaries of the surface estate without a sales contract or permit. The regulation provides that all other use, absent statutory or other express authority, requires a sales contract or permit. The BLM refers interested parties to the explanation of this

regulatory language in the preamble to the final rule published in the **Federal Register** in 2001, available at <https://www.federalregister.gov/d/01-29001>, which states that minimal use “would not include large-scale use of mineral materials, even within the boundaries of the surface estate” (66 FR 58894). Further explanation is contained in the BLM Instruction Memorandum No. 2014–085 (April 23, 2014), available on the BLM’s website at <https://www.blm.gov/policy/im-2014-085>.

The following numbered terms and conditions will appear on the conveyance documents for the sale parcels:

(1) All mineral deposits in the lands so patented, and to it, or persons authorized by it, the right to prospect for, mine, and remove such deposits from the same under applicable law and regulations to be established by the Secretary are reserved to the United States, together with all necessary access and exit rights.

(2) A right-of-way is reserved for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945).

(3) The parcels are subject to valid existing rights.

(4) The parcels are subject to reservations for roads, public utilities, and flood control purposes, both existing and proposed, in accordance with the local governing entities’ transportation plans.

(5) An appropriate indemnification clause protecting the United States from claims arising out of the patentee’s use, occupancy, or occupations on the patented lands.

To the extent required by law, the parcel is subject to the requirements of section 120(h) of CERCLA, as amended. Accordingly, notice is hereby given that the lands have been examined and no evidence was found to indicate that any hazardous substances have been stored for one year or more, nor that any hazardous substances have been disposed of or released on the subject properties.

No warranty of any kind, express or implied, is given by the United States as to the title, the boundaries, whether or to what extent the land may be developed, its physical condition, future uses, or any other circumstance or condition. The conveyance of a parcel will not be on a contingency basis.

Authority: 43 CFR 2711.3–2.

Acting Assistant Field Manager, Las Vegas Field Office.
