Displacing agencies will request each person who is to be displaced by a FHWA Federal or federally assisted project to voluntarily assist the agency in determining the benefits that their household, business, farm, or non-profit organization may be eligible to receive through the personal interview to determine their needs and preferences related to the move. This information is not required from the displaced person for the agency to proceed.

Respondents: Any of the 56 State Departments of Transportation (52, including the District of Columbia, Puerto Rico), and the United States territories of American Samoa, Guam, N. Mariana Is., and the Virgin Islands of the United States (4 territories), local government agencies, persons administering projects or programs receiving financial assistance for expenditures of Federal funds on acquisition and relocation payments and required services to displaced persons that are subject to the Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, (Uniform Act) for determination of Uniform Act relocation program benefit amounts, and file maintenance.

Any comments FMCSA receives not specifically designated as CBI will be placed in the public docket for this notice.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analyses. The Agency must provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely maintain a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305(a)). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)). If granted, the notice will identify the regulatory provision(s) from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)). If the exemption is denied, the notice will explain the reasons for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)).

III. Current Regulatory Requirements

The CDL regulations at 49 CFR 383.113(a) require that applicants for a CDL possess basic pre-trip vehicle inspection skills for the vehicle class that they operate or expect to operate. Applicants must be able to identify each safety-related part on the test vehicle and explain what needs to be examined during a pre-trip vehicle inspection to ensure the safe operation of the commercial motor vehicle. Under 49 CFR 383.113(a)(1)(i), applicants must possess this skill for the engine compartment of the vehicle. This portion of the test is known as the “under-the-hood” testing component.

IV. Applicant’s Request

APTA, on behalf of public transit agencies and their contractor partners, applied for an exemption from the

“under-the-hood” portion of the pre-trip inspection segment of the CDL skills test. The exemption would allow SDLAs to waive the engine compartment component of the pre-trip vehicle inspection skills test required under 49 CFR 383.113(a)(1)(i) for CDL applicants seeking to operate vehicles in public transportation, including interstate transportation.

According to the applicant, the public transit industry continues to experience a severe shortage of drivers and is struggling to maintain its workforce. APTA has identified the “under-the-hood” testing requirement as a significant impediment to hiring bus operators, leading to reduced transit service, missed trips, and increased costs for public transit agencies. APTA believes that the CDL “under-the-hood” test is completely unrelated to transit bus operators’ job responsibilities; creates equity concerns and serves as a deterrent to certain individuals who would otherwise thrive in this career; and is increasingly becoming obsolete with the transition to zero-emission vehicles. The applicant further adds that its members’ bus operator hiring issues are similar to those faced by the school bus industry and that FMCSA has granted similar relief allowing States to waive the “under-the-hood” test for CDL applicants intending to become school bus operators.

In support of its application, APTA submitted a research report it commissioned entitled, “Impact of CDL Under-the-Hood Testing Requirement on Public Transit Agencies’ Ability to Hire Bus Operators,” dated November 1, 2024.

A copy of APTA’s application for exemption and its research report are available for review in the docket for this notice.

V. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on the APTA’s application for an exemption. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested

persons should continue to examine the public docket for new material.

Associate Administrator for Policy.
