Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Center for Community Action and Environmental Justice v. U.S. EPA, et al., No. 3:24-cv-05042-EMC*. On August 12, 2024, Plaintiff Center for Community Action and Environmental Justice filed a complaint in the United States District Court for the Northern District of California San Francisco Division, alleging that the Environmental Protection Agency (EPA) failed to perform certain non-discretionary duties in accordance with the Act to take final action on a state implementation plan (SIP) revision submitted by the State of California. EPA is providing notice of this proposed consent decree, which would resolve all claims in the case by establishing a deadline for EPA to take final action as specified in the decree.

DATES: Written comments on the proposed consent decree must be received by *January 27, 2025*

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2024–0601, online at <https://www.regulations.gov> (EPA’s preferred method). Follow the online instructions for submitting comments.

Abstract: To meet the goals and objectives that demonstrate the U.S. Environmental Protection Agency (EPA's) and the Administration's commitment to achieving environmental justice and embedding environmental justice into Agency programs, the Environmental Justice Thriving Communities Grantmaking Program provides about \$600 million in 11 cooperative agreements funding to "Grantmakers" who will function as pass-through entities for the Environmental Justice Thriving Communities Subgrants (2 CFR parts 200 and 1500). Each Grantmaker will collaborate with EPA to design and build their own processes to receive and evaluate applications to fund the development of community-led environmental justice projects. With this Information Collection Request (ICR), EPA seeks approval for the Grantmakers to (a) solicit application for subawards and (b) to collect reports from recipients of subawards to track their progress. Collection of this information is essential for Grantmakers to select and distribute the subawards, and to assess and manage the funded projects, which ensures responsible stewardship of public funds; rigorous evidence-based learning and improvement; and transparent accountability to the American public. This ICR also requests approval for the Grantmakers to collect input and insights from communities who seek to obtain technical assistance services, as well as stakeholders who have valuable experience and expertise in community engagement and empowerment. These information collections via (c) surveys and (d) focus groups will enable the Centers to document local priorities, needs, and norms to ensure that they develop useful and relevant technical assistance and training services. Furthermore, feedback about these services will enable the Centers to conduct self-assessments to identify best practices and areas for improvement.

Respondents/affected entities: Recipients of financial assistance subawards from Grantmakers, community members, stakeholders.

Respondent's obligation to respond: Mandatory for recipients of subawards to obtain or retain a benefit (2 CFR parts 200 and 1500). Voluntary for public outreach information collection via surveys and focus groups.
