SUPPLEMENTARY INFORMATION:

I. Meeting Agenda

The Committees will meet virtually on Thursday, January 16, 2025, to discuss the “Periodic Standards Update II” NPRM that PHMSA published in the **Federal Register** on August 29, 2022, (87 FR 52713),¹ and the “Cost Recovery for Siting Reviews for LNG Facilities” NPRM that PHMSA published in the **Federal Register** on August 19, 2024, (89 FR 67040).² The Committees will review the NPRMs and their associated regulatory analyses, including, but not limited to, the preamble discussions of the proposals within each NPRM; regulatory impact analyses; environmental assessments; and other materials pertaining to the NPRMs provided in the respective public dockets. The committees will discuss the Cost Recovery for Siting Reviews for LNG facilities NPRM first. While the meeting is scheduled from 10:30 a.m. to 6:00 p.m. EST, the Committees may complete their review of the proposed rules before or after 6:00 p.m. EST. PHMSA will post additional details on the meeting website in advance of the meeting as they become available.

In the “Periodic Standards Update II” NPRM, PHMSA proposes amendments that would incorporate by reference all or parts of updated editions of some of those standards. The NPRM also proposes non-substantive edits and clarifications to certain other provisions of the federal pipeline safety regulations.

In the “Cost Recovery for Siting Reviews for LNG Facilities” NPRM, PHMSA proposes a new fee for cost recovery for siting reviews of liquefied natural gas (LNG) facility project applications where the design and construction costs total \$2.5 billion or more. This proposed rule is necessary to implement section 103 of the Protecting our Infrastructure of Pipelines and Enhancing Safety Act of 2020 (PIPES Act of 2020), and to help provide adequate resources for siting reviews to promote PHMSA’s public safety and environmental protection objectives. This proposed rule also revises current regulations authorizing PHMSA’s cost recovery for design safety reviews of gas, hazardous liquid, and carbon dioxide pipeline facilities to improve the clarity of the regulations and reduce unnecessary administrative burdens.

Following the LPAC and GPAC meeting, PHMSA will evaluate the

Committees’ recommendations and publish final rules that address the comments received and relevant information from the meeting report.

II. Background

The Committees are statutorily mandated advisory committees that provide PHMSA and the Secretary of Transportation with recommendations on proposed standards for the transportation of hazardous liquid and gas by pipelines. The Committees were established in accordance with 49 U.S.C. 60115 and the Federal Advisory Committee Act (FACA) (5 U.S.C. Ch. 10) to review PHMSA’s regulatory initiatives and determine their technical feasibility, reasonableness, cost-effectiveness, and practicability. Each committee consists of 15 members, with membership evenly divided among federal and state governments, regulated industry, and the general public.

III. Public Participation

The meeting will be open to the public. Members of the public who wish to attend must register on the meeting website and include their names and affiliations. PHMSA will provide members of the public reasonable opportunity to make a statement during this meeting. Additionally, PHMSA will record the meeting and post a record to the public docket. PHMSA is committed to providing all participants with equal access to this meeting. Public comments on the proceedings of the LPAC and GPAC meeting must be submitted by February 20, 2025.

PHMSA is not always able to publish a notice in the **Federal Register** quickly enough to provide timely notice regarding last-minute issues that impact a previously announced advisory committee meeting. Therefore, individuals should check the meeting website or contact Joe Berry regarding any possible changes.

Issued in Washington, DC, on December 20, 2024, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.
