II. Judicial Review

Section 307(b)(1) of the CAA indicates which Federal Courts of Appeal have venue for petitions of review of final actions by the EPA. This section provides, in part, that “a petition for review of action of the Administrator in promulgating . . . any standard of performance or requirement under section [111] of [the CAA],” or any other “nationally applicable” final action, “may be filed only in the United States Court of Appeals for the District of Columbia.” The EPA has determined that its action denying the petition for reconsideration is nationally applicable for purposes of CAA section 307(b)(1) because the action directly relates to the Risk Management Program regulations promulgated under CAA section 112(r), which are nationally applicable requirements. Thus, any petition for review of the final letter denying the petition for reconsideration must be filed in the Court of Appeals for the District of Columbia Circuit on or before February 28, 2025.

Michael S. Regan,
Administrator.

Needs and Uses: The Commission seeks to revise this collection to reflect changes to these rules adopted by the Commission in a Public Notice on September 10, 2024 (opening an application filing window and adopting for Cybersecurity Label Administrator (CLA) and Lead Administrator). The FCC's consumer IoT cybersecurity labeling program will provide consumers with easily understood, accessible information on the relative security of a consumer IoT product they are considering for purchase, which will increase the security of devices consumers bring into their homes and as part of a national IoT ecosystem. CLAs will be authorized by the Commission to certify use of the FCC IoT Label, which includes the U.S. government certification mark (U.S. Cyber Trust Mark), by manufacturers whose products are found to be in compliance with the Commission's IoT

cybersecurity labeling program rules. The September 2024 Public Notice adopted rules for the CLAs and the Lead Administrator to reduce the risk of unauthorized access, use, disclosure, disruption, modification, or destruction of program data. Under this collection, each CLA will be required to create, update, and implement a cybersecurity risk management plan identifying the cyber risks that the entity faces, the controls used to mitigate those risks, and the steps taken to ensure that these controls are applied effectively to their operations. The plan must also describe how the CLA employs its organizational resources and processes to ensure the confidentiality, integrity, and availability of its information and information systems. The CLA's cybersecurity risk management plan must be available to the Commission upon request.

Federal Communications Commission.

FEDERAL RESERVE SYSTEM

FEDERAL DEPOSIT INSURANCE CORPORATION

Community Reinvestment Act Regulations Asset-Size Thresholds

AGENCY: Board of Governors of the Federal Reserve System (Board); Federal Deposit Insurance Corporation (FDIC).

ACTION: Announcement of 2025 asset-size thresholds.

SUMMARY: Under their Community Reinvestment Act (CRA) regulations, the Board and the FDIC (collectively, the Agencies) annually adjust the asset-size thresholds used to define "small bank" and "intermediate small bank." As required by the CRA regulations, the adjustment to the threshold amounts is based on the annual percentage change in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W). Applying this annual inflation adjustment methodology, the Agencies are announcing that, from January 1, 2025, through December 31, 2025, "small bank" will mean a bank that, as of December 31 of either of the prior two calendar years, had assets of less than \$1.609 billion; and "intermediate small bank" will mean a small bank with assets of at least \$402 million as of December 31 of both of the prior two calendar years and less than \$1.609 billion as of December 31 of either of the prior two calendar years.
