[Project No. 2610–012]

Notice of Intent To Prepare an Environmental Assessment; Northern States Power Company

On December 30, 2022, Northern States Power Company filed a relicense application for the 1.5-megawatt Saxon Falls Hydroelectric Project No. 2610. The project is located on the Montreal River in Gogebic County, Michigan and Iron County, Wisconsin.

In accordance with the Commission's regulations, on October 10, 2024, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an

Environmental Assessment (EA) on the application to relicense the project.¹

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings.
