Abstract: The U.S. Customs and Border Protection (CBP or "Customs") regulations at 19 CFR 12.112 require that an importer or their authorized agent desiring to import a pesticide or pesticide device into the United States shall, prior to the shipment's arrival in the United States, submit a Notice of

Arrival (NOA) of Pesticides and Devices (EPA Form 3540–1 or its electronic alternative via a CBP-authorized electronic interchange system) to EPA. This is necessary to ensure that the EPA fulfills its obligations and is notified of the arrival of pesticides and pesticide devices as required under section 17(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and allow time for the EPA to review and plan for the final disposition of the shipment. Paper NOAs (EPA Form 3540–1) must be reviewed by the EPA, provide the EPA's determination of any action to be taken by CBP, and be signed by the EPA Administrator (or designee per delegations). Alternatively, an importer or their authorized agent can electronically submit the pesticide data required on the Paper NOA through the Participating Government Agency (PGA) Message Set in Automated Commercial Environment (ACE) along with an image of the product's label. The data in the PGA Message Set is automatically checked for presence, format, and validity, similar to the physical reviews done by regional import specialist for paper NOAs submitted by using EPA Form 3540–1. Upon entry of a shipment of pesticides or devices, and concurrent with the filing of the entry documentation, CBP must be in receipt of the completed Paper NOA or its electronic alternative. CBP will compare the entry information for the shipment with the information in the NOA and notify the EPA of any discrepancies.

Form number(s): EPA Form 3540–1 or its Customs-authorized electronic equivalent.

Respondents/affected entities: Entities potentially affected by this ICR are importers of pesticides and pesticide devices, which may include entities identified with the following North American Industrial Classification System (NAICS) codes: Commercial and Institutional Building Construction (NAICS 236220); Pesticide and Other Agricultural Chemical Manufacturing (NAICS 325300); and Public Administration: Executive Offices (NAICS 921110). Other business and institutions that import pesticides include Agriculture, Forestry, Fishing and Hunting (Sector 11), Wholesale Trade, (Sector 42).

Respondent's obligation to respond: Mandatory, per 40 CFR 152.25(f), FIFRA sections 3 and 25, and 19 CFR 12.112.

Estimated number of potential respondents: 168,025.

Frequency of response: On occasion.

Total estimated burden: 67,723 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated costs: \$5,478,039 (per year), includes \$0 annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is an increase of 26,843 hours in the total estimated respondent burden compared with that currently approved by OMB. This change reflects an increase in the annual number of NOAs submitted electronically through the ACE system by 75,892. There is an increase in respondent costs by \$2,724,517. Cost increases are a result of changes to reflect the current wage rates. This is an adjustment.

Director, Information Engagement Division.
