This notice allows for an additional 30 days for public comments. Abstract: This ICR addresses the reporting and recordkeeping requirements under TSCA section 8(b) that are associated with the TSCA Chemical Substance Inventory (TSCA Inventory), as codified in 40 CFR part 710. TSCA section 8(b) specifically requires that EPA compile and keep current a list of chemical substances manufactured or processed for commercial purposes in the United States. That mandate was amended in 2016 and TSCA section 8(b)(4) requires EPA to designate chemical substances on the TSCA Chemical Substance Inventory as either "active" or "inactive" in U.S. commerce. The first TSCA Inventory with all chemical substances designated as "active" or "inactive" published in February 2019.

Form number: EPA Form No. 9600-06; Notice of Activity Form B.

Respondents/affected entities: Entities potentially affected by this ICR include North American Industrial Classification System (NAICS) Code 325

Chemical Manufacturers, NAICS Code 324 Petroleum and Coal Products.

Respondent's obligation to respond: Mandatory.

Estimated number of potential respondents: 57.

Frequency of response: On occasion.
Total estimated burden: 144 (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated costs: \$19,956.68 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is decrease of 90 hours in the total estimated respondent burden compared with that currently approved by OMB. This change, which is discussed in more detail in the ICR, reflects a burden hour reduction related to the time-limited one-time reporting activities which are now discontinued.

Director, Information Engagement Division.

Chlorpyrifos; Final Cancellation Order To Amend Pesticide Registration To Terminate Asparagus Use

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) hereby announces its final cancellation order to terminate asparagus use voluntarily requested by Gharda Chemicals International, Inc. (Gharda) and accepted by the Agency, for one chlorpyrifos registration listed in Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This final cancellation order follows a notice in the **Federal Register** of September 16, 2024, to voluntarily amend this product registration. Accordingly, EPA hereby grants the requested amendment to terminate asparagus as shown in this cancellation order. Any distribution, sale, or use of existing stocks of the product registration listed in Unit II is subject to the existing stocks provisions in this cancellation order and permitted only in accordance with the terms of this order.

DATES: This cancellation order is effective January 3, 2025.
