

Incorporation by Reference

Class E5 airspace designations are published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024 and effective September 15, 2024. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 that would establish Class E airspace extending upward from 700 feet above the surface and revoke Class E airspace extending upwards from 1,200 feet above the surface at Blanding Municipal Airport, Blanding, UT.

Class E airspace extending upward from 700 feet should be established within a 6.2-mile radius of the airport, excluding that airspace parallel to the runway 3.1 miles west. Additionally, the Class E airspace should extend to the northeast to contain departing IFR operations until they reach 1,200 feet above the surface.

Class E airspace extending upward from 1,200 feet above the surface should be revoked as it is made redundant by Denver Class E En Route Domestic Airspace.

Finally, the legal description's geographical coordinates should be updated to match the FAA's database.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11J, Airspace Designations and Reporting Points, dated July 31, 2024, and effective September 15, 2024, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANM UT E5 Blanding, UT [Amended]

Blanding Municipal Airport, UT
(Lat. 37°35'00" N, long. 109°28'60" W)

That airspace extending upward from 700 feet above the surface within a 6.2-mile radius of the airport, excluding that airspace parallel to the runway 3.1 miles west, within 2.1 miles northwest and 2.9 miles southeast of the airport's 032° bearing extending from the 6.2-mile radius to 11.9 miles northeast.

14 CFR Part 71

[Docket No. FAA–2024–2099; Airspace Docket No. 24–ANM–105]

RIN 2120–AA66

Modification of Class E Airspace; Battle Mountain Airport, Battle Mountain, NV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify the Class E airspace area designated as surface area, establish a Class E airspace area designated as an extension to a Class D or Class E surface area, modify Class E airspace extending upward from 700 feet above the surface of the earth, and remove Class E airspace extending upward from 1,200 feet above the surface at Battle Mountain Airport, Battle Mountain, NV. Additionally, this action proposes administrative amendments to update the airport's existing Class E airspace legal descriptions. These actions would support the safety and management of instrument flight rules (IFR) operations at the airport.

DATES: ≤Comments must be received on or before February 21, 2025.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2024–2099 and Airspace Docket No. 24–ANM–105 using any of the following methods:

* *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200

New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FAA Order JO 7400.11J, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

FOR FURTHER INFORMATION CONTACT: Keith T. Adams, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198; telephone (206) 231-2428.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish new and modify existing Class E airspace to support IFR operations at Battle Mountain Airport, Battle Mountain, NV.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning

this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the office at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198.

Incorporation by Reference

Class E airspace designations are published in paragraphs 6002, 6004, and 6005, respectively, of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024 and effective September 15, 2024. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to modify the Class

E airspace area designated as surface area, establish a Class E airspace area designated as an extension to a Class D or Class E surface area, modify Class E airspace extending upward from 700 feet above the surface of the earth, and remove Class E airspace extending upward from 1,200 feet above the surface at Battle Mountain Airport, Battle Mountain, NV.

The Class E airspace area designated as surface area should be expanded from a 4.2-mile radius to a 4.4-mile radius and have a .1-mile extension to the southwest of the airport to more appropriately contain departing IFR aircraft executing the Runway (RWY) 22 obstacle departure procedure while between the surface and the base of adjacent controlled airspace.

In addition, Class E airspace designated as an extension to a Class D or Class E surface area should be established southwest of the airport to contain arriving IFR aircraft on the Very High Frequency Omnidirectional Range (VOR) RWY 4 approach while descending below 1,000 feet above the surface.

Moreover, the Class E airspace extending upward from 700 feet above the surface should be expanded to a 5-mile radius through all but the northwest portion to better contain arriving IFR aircraft descending below 1,500 feet and departing IFR aircraft until reaching 1,200 feet above the surface. The northeast extension should be realigned to the 051° and lengthened to appropriately contain arriving IFR aircraft below 1,500 feet above the surface while executing the Area Navigation (RNAV) (Global Positioning System [GPS]) RWY 22 approach. The southwest extension should be reduced in size to appropriately contain arriving IFR aircraft descending through 1,500 feet above the surface while executing the VOR RWY 4 or RNAV (GPS) RWY 4 approaches, departing IFR aircraft while executing the RNAV (GPS) RWY 13 or RNAV (GPS) RWY 33 departure procedures, and IFR aircraft ascending via the RNAV (GPS) RWY 22 missed approach procedure until reaching 1,200 feet above the surface. The northwest portion of the radius should be reduced in size and have an extension 3.6 miles wide extending on the 319° bearing from the 5-mile radius to 6.7 miles northwest of the airport to more appropriately contain IFR aircraft departing RWY 31 while climbing from 700 feet the 1,200 feet above the surface.

Furthermore, the Battle Mountain Class E airspace beginning at 1,200 feet above the surface should be removed as it is redundant.

Finally, the FAA proposes administrative modifications to the airport's associated legal description. Reference to the Battle very high frequency omnidirectional range tactical air navigation (VORTAC) on line 3 of the existing Class E5 legal descriptions is no longer needed and should be removed. The airspace should be described using the airport reference point.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11J, Airspace Designations and Reporting Points, dated July 31, 2024, and

effective September 15, 2024, is amended as follows:

Paragraph 6002 Airspace Areas Designated as Surface Area.

* * * * *

ANM NV E2 Battle Mountain, NV [Amended]

Battle Mountain Airport, NV
(Lat. 40°35'57" N, long. 116°52'28" W)

That airspace extending upward from the surface within a 4.4-mile radius of the airport and within 1.8 miles southeast and 1.9 miles northwest of the 228° bearing extending from the 4.4-mile radius to 4.5 miles southwest of the airport.

* * * * *

Paragraph 6004 Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

* * * * *

ANM NV E4 Battle Mountain, NV [New]

Battle Mountain Airport, NV
(Lat. 40°35'57" N, long. 116°52'28" W)

That airspace extending upward from the surface within 2.9 miles southeast and 3.4 miles northwest of the 221° bearing extending from the 4.4-mile radius to 10.4 miles southwest of the airport excluding that airspace within the Battle Mountain Airport Class E2.

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

ANM NV E5 Battle Mountain, NV [Amended]

Battle Mountain Airport, NV
(Lat. 40°35'57" N, long. 116°52'28" W)

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the airport, within 4.9 miles northwest and 1.9 miles southeast of the 051° bearing extending from the 5-mile radius to 11.1 miles northeast of the airport, within 3.5 miles southeast and 3.6 miles northwest of the 221° bearing extending from the 5-mile radius to 11.5 miles southwest of the airport, within 1.8 miles either side of the 319° bearing extending from the 5-mile radius to 6.7 miles northwest of the airport, and within a 5.5-mile radius clockwise from 40°41'1" N, 116°55'12" W to 40°41'19" N, 116°53'58" W.

BILLING CODE 4910–13–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 106 and 117

[Docket No. FDA–2024–D–2604]

Establishing Sanitation Programs for Low-Moisture Ready-To-Eat Human Foods and Taking Corrective Actions Following a Pathogen Contamination Event; Draft Guidance for Industry; Availability

AGENCY: Food and Drug Administration, Department of Health and Human Services (HHS).

ACTION: Notification of availability.

SUMMARY: The Food and Drug Administration (FDA, the Agency, or we) is announcing the availability of a draft guidance for industry entitled "Establishing Sanitation Programs for Low-Moisture Ready-to-Eat Human Foods and Taking Corrective Actions Following a Pathogen Contamination Event." The draft guidance, when finalized, will explain FDA's current thinking on establishing a routine sanitation program for low-moisture ready-to-eat human foods (LMRTE foods) that can help prevent contamination of food or a food-contact surface with a pathogen and will explain our current thinking for corrective actions, including corrective actions to remediate contamination of food-contact surfaces, if prevention fails.

DATES: Submit either electronic or written comments on the draft guidance by May 7, 2025, to ensure that the Agency considers your comment on the draft guidance before it begins work on the final version of the guidance.

ADDRESSES: You may submit comments on any guidance at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such
