

as part of a restricted transaction, on the *covered systems* more broadly (both terms CISA defines within the security requirements), and on the organization as a whole. While the requirements on covered systems and on an organization's governance of those systems apply more broadly than to the data at issue and the restricted transaction itself, CISA continues to assess that implementation of these requirements is necessary to validate that the organization has the technical capability and sufficient governance structure to appropriately select, successfully implement, and continue to apply the data-level security requirements in a way that addresses the risks identified by DOJ for the restricted transactions. For example, to ensure and validate that a covered system denies covered persons access to covered data, it is necessary to maintain audit logs of accesses as well as organizational processes to utilize those logs. Similarly, it is necessary for an organization to develop identity management processes and systems to establish an understanding of which persons may have access to different data sets.

In addition to requirements on covered systems, applying security requirements on the covered data itself that may be accessed in a restricted transaction is also necessary to address the risks. The specific requirements that are most technologically and logistically appropriate for different types of restricted transactions may vary. For example, some transactions may be amenable to approaches that minimize data or process it in such a way that does not reveal covered data to covered persons. In other cases, techniques such as access control and encryption may be more appropriate to deny any access by covered persons to unmitigated covered data. The security requirements provide multiple options to mitigate risk, though all the options build upon the foundation of the requirements imposed on covered systems and the organization as a whole. While U.S. persons³⁹ engaging in restricted transactions will be required to implement all the

³⁹ As noted above, for the purposes of the security requirements, to the extent CISA uses a term that is defined in the DOJ rulemaking, CISA uses that definition. Therefore, CISA is using the term U.S. persons as defined by the DOJ Final Rule. That definition reads "any United States citizen, national, or lawful permanent resident; any individual admitted to the United States as a refugee under 8 U.S.C. 1157 or granted asylum under 8 U.S.C. 1158; any entity organized solely under the laws of the United States or any jurisdiction within the United States (including foreign branches); or any person in the United States." 28 CFR 202.256.

organizational- and system-level requirements, such persons will have some flexibility to determine which combination of data-level requirements are sufficient to fully and effectively prevent access to covered data that is linkable, identifiable, unencrypted, or decryptable using commonly available technology by covered persons and/or countries of concern, based on the nature of the transaction and the data at issue.

Finally, the security requirements include a definitions section. To the extent the requirements use a term already defined in the DOJ rulemaking, CISA's use of that term in the security requirements would carry the same meaning. For the purpose of these security requirements, CISA includes definitions for five terms used exclusively in the security requirements:

- *Asset*. CISA defines the term to mean data, personnel, devices, systems, and facilities that enable the organization to achieve business purposes. This definition is derived from the CSF version 1.1, which defined asset as "[t]he data, personnel, devices, systems, and facilities that enable the organization to achieve business purposes."

- *Covered data*. CISA defines the term to mean the two categories of data identified by the Order and that DOJ is regulating through its rulemaking—government-related data or bulk U.S. sensitive personal data.

- *Covered system*. CISA defines this term as a specific type of information system that is used to conduct a number of activities related to covered data as part of a restricted transaction. These activities are drawn from a combination of the activities in the definition of information system in the security requirements and the activities in the DOJ rulemaking's definition of access. See 28 CFR 202.201. The term means an information system used to obtain, read, copy, decrypt, edit, divert, release, affect, alter the state of, view, receive, collect, process, maintain, use, share, disseminate, or dispose of (collectively, "interact with") covered data as part of a restricted transaction, regardless of whether the data is encrypted, anonymized, pseudonymized, or de-identified. "Covered system" does not include an information system (e.g., an end user workstation) that has the ability to view or read sensitive personal data (other than sensitive personal data that constitutes government-related data) but does not ordinarily interact with such data in bulk form.

- *Information system*. CISA defines this term consistent with the definition

in the Paperwork Reduction Act (PRA), 44 U.S.C. 3502.⁴⁰ The term means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

- *Network*. CISA defines this term, which CISA developed consistent with the definition of the term in NIST Special Publication 800–171 rev. 3, *Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations*. The term would mean a system of interconnected components, which may include routers, hubs, cabling, telecommunications controllers, key distribution centers, and technical control devices.

The publication of the finalized security requirements for restricted transactions pursuant to Executive Order (E.O.) 14117, "Preventing Access to Americans' Bulk Sensitive Personal Data and United States Government-Related Data by Countries of Concern" can be found on CISA's website: <https://www.cisa.gov/resources-tools/resources/EO-14117-security-requirements>. The Director of CISA, Jennie M. Easterly, has delegated the authority to approve and electronically sign this document to Nitin Natarajan, who is the Deputy Director of CISA, for purposes of publication in the **Federal Register**.

Nitin Natarajan,

Deputy Director, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security.

BILLING CODE 9111-LF-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–7080–C–64]

30-Day Notice of Proposed Information Collection: Application for the Community Development Block Grant (ICDBG) Program for Indian Tribes and Alaska Native Villages; Correction; OMB Control No.: 2577–0191

AGENCY: Office of Policy Development and Research, Chief Data Officer, HUD.

⁴⁰ 6 U.S.C. 650(14) (which applies to all of Title XXII of the Homeland Security Act of 2002, which, in turn, contains most of CISA's authorities) defines Information System as having the meaning given the term in the Paperwork Reduction Act, 44 U.S.C. 3502, and specifically includes "industrial control systems, such as supervisory control and data acquisition systems, distributed control systems, and programmable logic controllers." 6 U.S.C. 650(14). However, given CISA's assumption that this type of operational technology is unlikely to be implicated by DOJ's regulations, CISA is not including the operational technology-related prong here.

ACTION: Notice, correction.

SUMMARY: HUD is publishing this notice to correct the heading on the notice that was published in the **Federal Register** on December 26, 2024. The heading should read 30-day Notice of Proposed Information Collection.

FOR FURTHER INFORMATION CONTACT: Anna Guido, Clearance Officer, REE, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Anna.P.Guido@hud.gov, telephone 202-402-5534. This is not a toll-free number. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Copies of available documents submitted to OMB may be obtained from Ms. Guido.

SUPPLEMENTARY INFORMATION: HUD published an information collection notice in the **Federal Register** at 89 FR 105064 entitled “Indian Community Development Block Grant Information Collection”. This notice corrects the heading to read “30-Day Notice of Proposed Information Collection.”

Nacheshia Foxx,
Federal Register Liaison, Office of General Counsel.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-HQ-IA-2024-0202; FXIA1671090000-245-FF09A30000]

Endangered Species; Issuance of Permits

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of issuance of permits.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have issued permits to conduct certain activities with endangered species. We issue these permits under the Endangered Species Act (ESA).

ADDRESSES: Information about the applications for the permits listed in this notice is available online at <https://www.regulations.gov>. See **SUPPLEMENTARY INFORMATION** for details.

FOR FURTHER INFORMATION CONTACT: Timothy MacDonald, by phone at 703-358-2185 or via email at DMAFR@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have issued permits to conduct certain

activities with endangered and threatened species in response to permit applications that we received under the authority of section 10(a)(1)(A) of the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

After considering the information submitted with each permit application and the public comments received, we issued the requested permits subject to certain conditions set forth in each permit. For each application for an endangered species, we found that (1) the application was filed in good faith, (2) the granted permit would not operate to the disadvantage of the endangered species, and (3) the granted permit would be consistent with the purposes and policy set forth in section 2 of the ESA.

Availability of Documents

The permittees’ original permit application materials, along with public comments we received during public comment periods for the applications, are available for review. To locate the application materials and received comments, go to <https://www.regulations.gov> and search for the appropriate permit number (e.g., 12345C) provided in the following table:
