Title: Report of Inspections Required by Airworthiness Directives, Part 39.

Form Numbers: There is no standard form to use for AMOC submission. However, the public may access the ADD External website to submit an AMOC request to the FAA.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on October 21, 2024 89 FR 84236. Alternative Methods of Compliance (AMOC) are submitted to the FAA by the general public. While anyone may submit an AMOC there is no standard form to use. From Order 8110.103B Alternative Methods of Compliance (AMOC), Section 32:

3-2. AMOC Proposal. 14 CFR 39.19 states in part that “anyone may propose to the FAA an alternative method of compliance or a change in the compliance time, if the proposal provides an acceptable level of safety.”

a. Although a letter is preferred, AMOC proposals may be submitted by other means, such as email, fax, or telephone. AMOC proposals received by telephone must be documented.

An AMOC Response Letter is written by an internal FAA user and sent to the AMOC Requester. The template may be generated from the ADD Dashboard and follows the latest Order. There is not an FAA or OMB number on this template.

A member of the public may submit an AMOC request to the FAA by using the ADD External website. Registration is not needed to use this website. External users must consent to the “Terms of Use” statement before proceeding to the AMOC proposal web

page. An AMOC is required if an owner/operator of aircraft cannot comply with an AD or finds a different method to comply with the actions specified in an AD, as mandated by 14 CFR part 39.

Respondents: The respondents are a member of the public who may submit an AMOC request to FAA by using the ADD External website. We estimate that 25 ADs yearly will require reports of information and findings. The average AD affects about 1,120 owners/operators. Therefore, 25 ADs times 1,120 owners/operators per year equal 28,000 reports.

Frequency: As needed.

Estimated Average Burden per Response: 1 hour.

Estimated Total Annual Burden: 28,000 reporting hours.

Issued on January 7, 2025.

Hollister B. Thorson,

Manager, Airworthiness Products Section, Operational Safety Branch, Compliance & Airworthiness Division, Aircraft Certification Service.
