

management of addressed data and enables upstream and down-stream analyses within the context of the stream network. Any type of information can be addressed to the stream network, making this tool highly useful for a broad range of purposes that benefit the Nation.

HydroAdd users are members of the public, and include State, local, private sector, academic, or other users with a basic knowledge of GIS. To use HydroAdd, users must first share their geospatial data as a hosted web feature service from ArcGIS Online. HydroAdd displays the user's data as a web feature service in the browser window. Users can then utilize HydroAdd to address their data to the NHD. Note that HydroAdd does not allow users to edit the NHD. Users are strictly limited to editing their own data.

The information collection request is the user registration. Users must register at the HydroAdd website. When registering, users are required to fill out a profile with a username and email contact. This information is stored in the application database.

Modifications to improve the HydroAdd tool are currently in development. The modifications were necessary (a) to allow HydroAdd to use the latest hydrography product from the USGS 3D Hydrography Program (3DHP); (b) to implement an open-source hosting service for user data (GeoServer), rather than ArcGIS Online; (c) to authenticate users with login.gov rather than ArcGIS.com or DOI; (d) to update some of the underlying logic to speed GIS processing, and (e) to update the name of the tool to HydroAdd3d. These modifications do not affect the information collection.

Title of Collection: Hydrography Addressing Tool.
OMB Control Number: 1028–0129.
Form Number: NA.
Type of Review: Revision of a currently approved collection.
Respondents/Affected Public: 100.
Total Estimated Number of Annual Respondents: 100.
Total Estimated Number of Annual Responses: 100.
Estimated Completion Time per Response: 1 minute.
Total Estimated Number of Annual Burden Hours: 1-2/3 hour.
Respondent's Obligation: Voluntary.
Frequency of Collection: One time, or as needed if respondent business contact information changes.
Total Estimated Annual Nonhour Burden Cost: None.
 An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
 The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

Ray Postolovski,
Deputy Associate for Operations, National Geospatial Technical Operations Center.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS–WASO–CONC–39199; PPWOBSDCO, PPMVSCS1Y.Y00000]

Notice of Intent To Extend Concession Contracts at Yellowstone National Park

AGENCY: National Park Service, Interior.

ACTION: Public notice.

SUMMARY: Under the terms of its regulations and the applicable concession contracts, the National Park Service (NPS) notifies the public that it intends to extend each concession contract listed in the table below. NPS will extend the contracts until the date shown in the “Extension Expiration Date” column or until the effective date of a new contract, whichever comes first.

DATES: NPS intends that the concession contract extensions will be effective on the dates shown in the table below, as applicable.

FOR FURTHER INFORMATION CONTACT: Kurt Rausch, Program Chief, Commercial Services Program, National Park Service, 1849 C Street NW, Mail Stop 2410, Washington, DC 20240; telephone: 202–513–7156.

SUPPLEMENTARY INFORMATION: Under 36 CFR 51.23, NPS proposes to extend each contract listed in the table below until the date shown in the “Extension Expiration Date” column or until the effective date of a new contract, whichever comes first. NPS has determined that the proposed extensions are necessary to avoid an interruption of visitor services and has taken all reasonable and appropriate steps to consider alternatives to avoid such an interruption. The extension of the existing contracts does not confer or affect any rights with respect to the award of new contracts.

The publication of this notice reflects NPS's intent but does not bind NPS to extend any of the contracts listed below.

TABLE—CONCESSION CONTRACTS EXTENDED UNTIL THE EXPIRATION DATE SHOWN OR UNTIL THE EFFECTIVE DATE OF A NEW CONTRACT, WHICHEVER COMES FIRST

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1365]

Certain Photovoltaic Connectors and Components Thereof; Notice of a Commission Final Determination Finding no Violation of Section 337; Termination of the Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission (“Commission”) has determined to reverse in part a final initial determination (“FID”) issued by the presiding administrative law judge (“ALJ”) finding a violation of section 337 of the Tariff Act of 1930, as amended. The investigation is terminated with a finding of no violation.

FOR FURTHER INFORMATION CONTACT: Paul Lall, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2043. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal, telephone (202) 205-1810.

SUPPLEMENTARY INFORMATION: On June 9, 2023, the Commission instituted this investigation based on a complaint filed on behalf of Shoals Technologies Group,

LLC (“Shoals Technologies”) of Portland, Tennessee. 88 FR 37905-06 (June 9, 2023). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 (“section 337”), based upon the importation into the United States, the sale for importation, or sale within the United States after importation of certain photovoltaic connectors and components thereof by reason of infringement of certain claims of U.S. Patent Nos. 10,553,739 (“the ’739 patent”) and 10,992,254 (“the ’254 patent”). The Commission’s notice of investigation (“NOI”) named the following eight respondents: (1) Hikam America, Inc. of Chula Vista, California; (2) Hikam Electrónica de México, S.A. de C.V. of Mexicali, Mexico; (3) Hikam Tecnologia de Sinaloa of Guasave, Mexico; (4) Hewtech Philippines Corp. of Laguna, Philippines; (5) Hewtech Philippines Electronics Corp. of Pampanga, Philippines; (6) Hewtech (Shenzhen) Electronics Co., Ltd. of Shenzhen, China (collectively the “Hikam Respondents”); (7) Voltage, LLC (“Voltage”) of Chapel Hill, North Carolina; and (8) Ningbo Voltage Smart Production Co. (“Ningbo Voltage”) of Ningbo, China (collectively “Respondents”). *Id.* The Office of Unfair Import Investigations (“OUII”) was also named as a party in this investigation. *Id.* at 37906.

On August 15, 2023, the Commission amended the complaint and NOI to add allegations of infringement against Voltage related to certain claims of U.S. Patent No. 11,689,153 (“the ’153 patent”). *See* Order No. 5 (Jul. 18, 2023), *unreviewed by* Comm’n Notice, 88 FR 56882-83 (Aug. 21, 2023).

The presiding ALJ held a *Markman* hearing on December 13, 2023, and on February 20, 2024, issued an order addressing claim construction for the ’739, ’254, and ’153 patents. *See* Order No. 16 (Feb. 20, 2024) (“*Markman* Order”). On February 28, 2024, Shoals filed a motion for reconsideration of the *Markman* Order’s construction of the term “engaged with” in claims 1 and 10 of the ’739 patent. On March 4 and 5,

2024, Respondents and OUII filed oppositions to the motion, respectively.

On March 11, 2024, the Commission terminated the following claims from the investigation based on Shoals’ withdrawal of the complaint as to those claims: claims 2, 3, 6, 8, 9, 11, 12, and 15-18 of the ’739 patent, claims 2-4, 8-12, 14, and 15 of the ’254 patent, and claims 2, 3, 6, and 15-17 of the ’153 patent. *See* Order No. 15 (Feb. 9, 2024), *unreviewed by* Comm’n Notice (March 11, 2024).

On March 25, 2024, the Commission terminated the ’254 patent from this investigation based on Shoals’ withdrawal of the complaint as to that patent. *See* Order No. 19 (Feb. 28, 2024), *unreviewed by* Comm’n Notice (March 26, 2024).

On April 19, 2024, the Commission determined not to review the ALJ’s grant of summary determination that Shoals has not satisfied the technical prong of the domestic industry requirement for the ’739 Patent and, thus, found no violation as to the ’739 patent. Order No. 20 (March 6, 2024), *unreviewed by* Comm’n Notice (Apr. 19, 2024). In Order No. 20, the ALJ also denied Shoals’ motion for reconsideration of the *Markman* Order. *Id.* Only the ’739 patent was asserted against the Hikam Respondents. *See* Comm’n Notice (Apr. 19, 2024); Am. Compl. at ¶ 66.

Accordingly, the Hikam Respondents were effectively terminated from the investigation as of the termination of the ’739 patent. On June 18, 2024, Shoals filed a notice of appeal with the U.S. Court of Appeals for the Federal Circuit appealing the Commission’s finding of no violation as to the ’739 patent. *See* Case No. 24-1991, Notice of Docketing (Fed. Cir. June 24, 2024). On December 18, 2024, the Federal Circuit issued an order dismissing the appeal based on a joint stipulation of voluntary dismissal. *See* Case No. 24-1991, Order (Fed. Cir. Dec. 18, 2024).

On April 26, 2024, the Commission terminated the investigation with respect to asserted claim 8 of the ’153 patent based on Shoals’ withdrawal of the complaint as to that claim. *See*
