[Project No. 5362–021]

Kennebunk Light and Power District; Notice of Intent To Prepare an Environmental Assessment

On March 31, 2021, and supplemented on April 8, 2021, Kennebunk Light and Power District (licensee) filed an application for surrender of its license for the Lower Mousam Hydroelectric Project No. 5362. The project is located on the Mousam River in York County, Maine. The project does not occupy any Federal lands.

The licensee proposes to surrender its license because more cost-effective sources of electricity are available and the project is no longer cost-effective to operate. The licensee proposes to decommission the project by removing all flashboards, disconnecting the leads from the generators, removing all generation and electrical equipment, as well as securing each project development with fencing. The dams would remain in place and no ground disturbing activities are proposed other than fencing.

Commission staff issued a public notice of the application on April 21, 2021, setting May 21, 2021 as the deadline for filing comments, motions to intervene, and protests. The U.S. Department of Commerce, Maine Department of Inland Fisheries and Wildlife, and the U.S. Department of Interior filed timely notices of intervention and comments. Maine Rivers, Mousam and Kennebunk Rivers Alliance, Mousam Rivers Coalition, Maine Department of Marine Resources, and Trout Unlimited filed timely motions to intervene and comments. Additionally, non-profits and numerous private citizens filed comments or protests, including: Maine Audubon Society, National Marine Fisheries Service, the U.S. Fish and Wildlife Service, Maine Audubon Society, and the Wells National Estuarine Research Reserve. Numerous commenters recommend removal of the dams and
