

expenses beyond the port of export in Argentina (e.g., Buenos Aires, Argentina) and in excess of the Reference Prices, i.e., the F.O.B. Buenos Aires, Argentina, price.

Reference Price Requests

Additional conversion factors and product types may be added to the Agreement. Signatories may request that the Department add a new conversion factor or product type by filing a written public request on the official record of the Agreement. Within ten days of the filing of the request, interested parties may comment on the requested additional conversion factor or product types, including the appropriate reference price that should apply to a new product type. The Department will consider such requests for new conversion factors or product types and issue a determination in a timely manner. Additional conversion factors or product types would apply to sales by all Signatories going forward.

Adjustment Mechanism

The Reference Prices shall remain in effect through December 31, 2025.

Before January 15, 2026, and on or before January 15 of any subsequent year, the parties to the proceeding may request that the Department adjust the Reference Prices. The Department will normally issue any final revised Reference Prices within 30 days of receiving the written request. However, if needed, and with good cause, the Department may extend the deadline.

For purposes of the Adjustment Mechanism, the following definitions apply:

A. “Base Reference Prices” means the minimum prices for clear and cloudy frozen, concentrated Lemon Juice at 400 GPL.

B. “Weighted-Average Import Price” means the total value of U.S. imports of lemon juice divided by the total volume of U.S. imports of lemon juice from Argentina and, unless good cause is demonstrated, from all countries not subject to antidumping duty orders or investigations. The source of the import value and volume will be publicly available import statistics from the United States Census Bureau (Census), using the HTSUS subheading(s) applicable to clear and cloudy frozen concentrated Lemon Juice at 400GPL.

The Reference Prices may be adjusted via the following mechanism:

1. On or before January 15, a party to the proceeding may submit a written request for an adjustment to the Base Reference Prices.

2. The written request must demonstrate that the Weighted-Average

Import Price has changed significantly during a period of no less than 4 months prior to the request. For the purposes of the Adjustment Mechanism, “significantly” means a change of at least 10 percentage points (higher or lower) than the starting point of the data series used for the demonstration. The data series must include at least 4 months, and must include the month for which the most recent data is available from Census.

3. If, after review of the request and consultations with the parties, the Department concludes that the Weighted-Average Import Price has changed significantly, then the Department will adjust the Base Reference Prices. Any such adjustment shall be based on a percentage change to the Base Reference Prices that is equal to half of the measured change in the Weighted-Average Import Price. For example, if the Base Reference Price is \$10.50/gallon for 400 GPL cloudy Lemon Juice and

a. the Weighted-Average Import Price has fallen by 10 percent, then the Base Reference Price would be adjusted to \$9.98/gallon (i.e., $\$10.50 - (10\% * 50\% * \$10.50)$).

b. the Weighted-Average Import Price has increased by 10 percent, then the Base Reference Price would be adjusted to \$11.03/gallon (i.e., $\$10.50 + (10\% * 50\% * \$10.50)$).

4. In addition to the Base Reference Prices, the Department will adjust all Reference Prices for the conversion factors in effect in the Reference Price chart, as updated, in Appendix I of the Agreement according to the Department’s established methodology.

If any extenuating circumstances occur in the U.S. market for lemon juice, the Department may, at its discretion, request consultations on revisions to the Reference Prices at any time.

Certain Frozen Fish Fillets From the Socialist Republic of Vietnam: Notice of Partial Revocation of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On January 17, 2025, the United States, through the Office of the U.S. Trade Representative (USTR), and the Government of the Socialist Republic of Vietnam (Vietnam) signed an agreement regarding the World Trade Organization (WTO) dispute *United States—Anti-Dumping Measures on Fish Fillets from Viet Nam* (DS536). In light of this agreement, the U.S. Department of Commerce (Commerce) is issuing this notice of partial revocation of Vinh Hoan Corporation (Vinh Hoan) from the antidumping duty order on certain frozen fish fillets from Vietnam.

DATES: Applicable August 1, 2021.

FOR FURTHER INFORMATION CONTACT: Javier Barrientos, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2243.

In light of the agreement, Commerce is issuing this notice revoking Vinh

Hoan¹ from the *Order*,² effective August 1, 2021. Therefore, merchandise produced and exported by Vinh Hoan is excluded from the *Order*. Accordingly, Commerce will instruct U.S. Customs and Border Protection (CBP) to liquidate unliquidated entries of certain frozen fish fillets from Vietnam produced and exported by Vinh Hoan which were entered, or withdrawn from warehouse, for consumption on or after August 1, 2021, without regard to antidumping duties.³ Commerce will also instruct CBP to discontinue the suspension of liquidation and the collection of cash deposits for estimated antidumping duties for entries of certain frozen fish fillets produced and exported by Vinh Hoan.
