Executive Order 14153 of January 20, 2025

### Unleashing Alaska's Extraordinary Resource Potential

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

**Section 1. *Background.*** The State of Alaska holds an abundant and largely untapped supply of natural resources including, among others, energy, mineral, timber, and seafood. Unlocking this bounty of natural wealth will raise the prosperity of our citizens while helping to enhance our Nation's economic and national security for generations to come. By developing these resources to the fullest extent possible, we can help deliver price relief for Americans, create high-quality jobs for our citizens, ameliorate our trade imbalances, augment the Nation's exercise of global energy dominance, and guard against foreign powers weaponizing energy supplies in theaters of geopolitical conflict.

Unleashing this opportunity, however, requires an immediate end to the assault on Alaska's sovereignty and its ability to responsibly develop these resources for the benefit of the Nation. It is, therefore, imperative to immediately reverse the punitive restrictions implemented by the previous administration that specifically target resource development on both State and Federal lands in Alaska.

**Sec. 2. *Policy.*** It is the policy of the United States to:

(a) fully avail itself of Alaska's vast lands and resources for the benefit of the Nation and the American citizens who call Alaska home;

(b) efficiently and effectively maximize the development and production of the natural resources located on both Federal and State lands within Alaska;

(c) expedite the permitting and leasing of energy and natural resource projects in Alaska; and

(d) prioritize the development of Alaska's liquified natural gas (LNG) potential, including the sale and transportation of Alaskan LNG to other regions of the United States and allied nations within the Pacific region.

**Sec. 3. *Specific Agency Actions.*** (a) The heads of all executive departments and agencies, including but not limited to the Secretary of the Interior; the Secretary of Commerce, acting through the Under Secretary of Commerce for Oceans and Atmosphere; and the Secretary of the Army acting through the Assistant Secretary of the Army for Public Works, shall exercise all lawful authority and discretion available to them and take all necessary steps to:

(i) rescind, revoke, revise, amend, defer, or grant exemptions from any and all regulations, orders, guidance documents, policies, and any other similar agency actions that are inconsistent with the policy set forth in section 2 of this order, including but not limited to agency actions promulgated, issued, or adopted between January 20, 2021, and January 20, 2025; and

(ii) prioritize the development of Alaska's LNG potential, including the permitting of all necessary pipeline and export infrastructure related to the Alaska LNG Project, giving due consideration to the economic and national security benefits associated with such development.
