DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by March 13, 2025. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: Agricultural Surveys Program—Substantive Change.

OMB Control Number: 0535–0213.

Summary of Collection: General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204 which specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics. . . .” The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

The National Agricultural Statistics Service (NASS) is requesting a substantive change to the Agricultural Surveys Program information collection request (OMB No. 0535–0213) for changes to the June Area Survey as well as reinstate the annual July Cattle Survey. The proposed changes to the methodology and data collection are proposed to increase cost efficiency while sustaining public data products. The changes in this request increases burden hours.

Need and Use of the Information: The surveys provide the basis for estimates of the current season's crop and livestock production and supplies of grain in storage. Crop and livestock statistics help develop a stable economic atmosphere and reduce risk for production, marketing, and distribution operations. These commodities affect the well being of the nation's farmers, commodities markets, and national and global agricultural policy. Users of agricultural statistics are farm organizations, agribusiness, state and national farm policy makers, and foreign buyers of agricultural products but the primary user of the statistical information is the producer. Agricultural statistics are also used to plan and administer other related federal and state programs in such areas as school lunch program, conservation,

foreign trade, education, and recreation. Collecting the information less frequent would eliminate needed data to keep the government and agricultural industry abreast of changes at the state and national levels.

Description of Respondents: Farms and Ranches.

Number of Respondents: 518,600.

Frequency of Responses: Reporting: Quarterly; Semi-annually; Monthly; Annually.

Total Burden Hours: 190,943.

Levi Harrell,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2014–0062]

Privacy Act of 1974; System of Records; Delay of Effective Date

AGENCY: Animal and Plant Health Inspection Service (APHIS), U.S. Department of Agriculture (USDA).

ACTION: Notice of a modified system of records; delay of effective date.

SUMMARY: This document delays the effective date of the January 10, 2025, modified system of records notice, titled “Smuggling Interdiction and Trade Compliance (SITC) National Information Communication Activity System (SNICAS), USDA/APHIS–21,” in accordance with the memorandum of January 20, 2025, from the President titled, “Regulatory Freeze Pending Review”. The effective date of the exemptions in the notice are delayed until April 11, 2025. The notice modified the system to exempt it from certain provisions of the Privacy Act.

DATES: As of February 7, 2025, the effective date for the exemptions in the modified system of records notice published on January 10, 2025 (90 FR 1940), are delayed until April 11, 2025.

FOR FURTHER INFORMATION CONTACT: Mr. Ricardo Valdez, Pest Exclusion and Import Programs, National Policy Manager, SITC, PPQ, APHIS, 4700 River Road, Riverdale, MD 20737; (443) 745–7931; SITC.Mail@usda.gov.

SUPPLEMENTARY INFORMATION: In accordance with the memorandum of January 20, 2025, from the President to executive departments and agencies titled, “Regulatory Freeze Pending Review,”¹ this action delays the effective date of exemptions in the modified system of records notice, titled “Smuggling Interdiction and Trade Compliance (SITC) National Information Communication Activity System (SNICAS), USDA/APHIS–21,” published in the **Federal Register** on January 10, 2025 (90 FR 1940–1941; APHIS–2014–0062).²

The SNICAS system of records maintains a record of activities conducted by the agency pursuant to its mission and responsibilities authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*); the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*); and the Honey Bee Act (7 U.S.C. 281 *et seq.*). The purpose of the system is to record data and information about APHIS’ SITC activities nationwide. SITC is within APHIS’ Plant Protection and Quarantine program.

SITC officials use the information in SNICAS to identify and close pathways used for the introduction of prohibited commodities and those regulated commodities that lack the necessary certificates and permits to enter U.S. commerce. SITC officials also use SNICAS to perform activities such as legal and regulatory actions; scientific research; risk, trend, pathway and targeting analyses; trade support; administrative and budgetary support; supervision and program management; and overall decision support services. Additionally, SITC officials use SNICAS to generate reports to evaluate the risk status of the commercial sites where regulated commodities are seized, the effectiveness of the program, and quality control of the data.

APHIS will share information from the system pursuant to the requirements of the Privacy Act and, in the case of its routine uses, when the disclosure is compatible with the purpose for which the information was compiled. However, the notice allowed for the exemption of specific records in the system from certain Privacy Act requirements in accordance with 5 U.S.C. 552a(k)(2) (Investigative Law Enforcement Materials). APHIS exempted the system from Privacy Act access requirements including 5 U.S.C. 552a(c)(3); (d); (e)(1); (e)(4)(G), (H), and

(I); and (f), and indicated that an individual who is the subject of a record in this system may not seek access to those records that are exempt from the access provisions. A determination of whether a record may be accessed would be made at the time a request is received.

In this issue of the **Federal Register**, we are also publishing a delay of effective date for the final rule associated with this action.³

Done in Washington, DC, this 6th day of February 2025.

Michael Watson,

Administrator, Animal and Plant Health Inspection Service.
