Port Authority Trans-Hudson's Request To Amend Its Positive Train Control Safety Plan and Positive Train Control System

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that, on February 10, 2025, Port Authority Trans-Hudson (PATH) submitted a request for amendment (RFA) to its FRA-approved Positive Train Control Safety Plan (PTCSP) to request approval to install an updated software version V3.5.121, which includes Zone Controller (ZC) software, a ZC database, Automatic Train Supervision (ATS) software, and a Carborne Controller (CC) software update. As this RFA involves a request for FRA's approval of proposed material modifications to an FRA-certified positive train control (PTC) system, FRA is publishing this notice and inviting public comment on PATH's RFA to its PTCSP.

DATES: FRA will consider comments received by March 24, 2025. FRA may consider comments received after that date to the extent practicable and without delaying implementation of valuable or necessary modifications to a PTC system.

ADDRESSES:

Comments: Comments may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and the applicable docket number. The relevant PTC docket number for this host railroad is Docket No. FRA-2010-0034. For convenience, all active PTC dockets are hyperlinked on FRA's website at <https://railroads.dot.gov/research-development/program-areas/train-control/ptc/railroads-ptc-dockets>. SUPPLEMENTARY INFORMATION: In general, title 49 United States Code (U.S.C.) section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTCSP, a host railroad must submit, and obtain FRA's approval of, an RFA to its PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal or train control system. Accordingly, this notice informs the public that, on February 10, 2025, PATH submitted an RFA to its PTCSP for its Communication Based Train Control (CBTC), which seeks FRA's approval for an updated software version V3.5.121, which includes ZC software, a ZC database, ATS software, and a CC software update. That RFA is available in Docket No. FRA-2010-0034.

Interested parties are invited to comment on PATH's RFA to its PTCSP by submitting written comments or data. During FRA's review of PATH's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying implementation of valuable or necessary modifications to a PTC system. *See* 49 CFR 236.1021; *see also* 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA to its PTCSP at FRA's sole discretion.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated January 14, 2025, LIRR petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 222, Use of Locomotive Horns at Public Highway-Rail Grade Crossings. The relevant Docket Number is FRA-2008-0045.

Specifically, LIRR seeks an extension of relief from § 222.21(a), *When must a locomotive horn be used?*, which requires that a railroad sound its locomotive horn in a specific manner (two long, one short, and one long blast) as it approaches and enters public highway-rail grade crossings. LIRR seeks to continue sounding one short blast when departing from 22 train stations.¹ In its petition, LIRR states that “there have been no material changed circumstances” since the inception of the waiver.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by April 2, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

¹ In its initial February 6, 2008, petition, LIRR sought a waiver for 24 stations (FRA-2008-0045-0001). FRA granted the waiver for 23 of those stations (FRA-2008-0045-0004). Because one of those 23 stations was later included in a designated quiet zone, FRA's February 19, 2020, letter, extended the waiver for 22 stations.
