[RTID 0648–XE755]

**New England Fishery Management Council; Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The New England Fishery Management Council (Council) is holding a public meeting of its Scientific and Statistical Committee (SSC) Subpanel via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

**DATES:** This meeting will be held on Friday, April 11, 2025, beginning at 1 p.m.

**ADDRESSES:** Webinar Registration information: <https://nefmc-org.zoom.us/meeting/register/UjxVLOcVtGSRACAgCu0UQ>.

*Council address:* New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

**FOR FURTHER INFORMATION CONTACT:** Cate O’Keefe, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

**SUPPLEMENTARY INFORMATION:****Agenda**

A Scientific and Statistical Committee (SSC) Subpanel will review work led by researchers at the University of Maine, in collaboration with the Maine Department of Marine Resources and the Northeast Fisheries Science Center to evaluate methods for estimating discards of Atlantic cod from the lobster fishery for integration into the Eastern Gulf of Maine (EGOM) Atlantic cod stock assessment. In this review, the subpanel will consider: (1) the methods for quantifying a time series of Atlantic cod discards from the lobster fishery, (2) any modifications of the methods that would be required to incorporate the discard time series into total catch accounting that informs the EGOM cod stock assessment, and (3) any recommendations for improvement of these estimates in the future. This technical review follows the *Council’s Research Review Policy*, consistent with National Standard 2 Guidelines.

Other business will be discussed, as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council’s intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

**Special Accommodations**

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Cate O’Keefe, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

*Authority:* 16 U.S.C. 1801 *et seq.*

Dated: March 12, 2025.

**Rey Israel Marquez,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

[RTID 0648–XE725]

**Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 90 Data Workshop for South Atlantic Red Snapper.

**SUMMARY:** The SEDAR 90 assessment process of South Atlantic Red Snapper will consist of a Data Workshop, and a series of assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The SEDAR 90 Data Workshop will be held from 1 p.m. on April 28, 2025, until 1 p.m. on May 2, 2025. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being

extended from or completed prior to the time established by this notice.

**ADDRESSES:**

*Meeting address:* The SEDAR 90 Data Workshop will be held at the Town & Country Inn and Suites, 2008 Savannah Highway, Charleston, SC 29407.

*SEDAR address:* 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:** Emily Ott, SEDAR Coordinator; (843) 302–8434; email: [Emily.Ott@safmc.net](mailto:Emily.Ott@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO’s; International experts; and staff of Councils, Commissions, and State and Federal agencies.

The items of discussion in the Data Workshop are as follows:

An assessment data set and associated documentation will be developed during the workshop. Participants will evaluate proposed data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those
