Abstract of Information Available

A total of two cultural items have been requested for repatriation. The two sacred objects/objects of cultural patrimony are a girl's dress (PMA# 2019-161-1) and a tobacco bag (PMA# 2019-161-2). The donors did not possess provenance information or other documentation concerning the objects, which they had purchased from an unidentified vendor on the art market many years prior.

The PMA has determined that:

- The two sacred objects/objects of cultural patrimony described in this notice are, according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization, specific ceremonial objects needed by a traditional Native American religious leader for present-day adherents to practice traditional Native American religion, and have ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision).

- There is a reasonable connection between the cultural items described in this notice and the Assiniboine and Sioux Tribes of the Fort Peck Indian Reservation, Montana.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

If competing requests for repatriation are received, the PMA must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The PMA is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.

Atka Island

Human remains representing, at least, three individuals have been identified. No associated funerary objects are present. In either 1948 or 1949, the human remains were removed from burial caves on Atka Island in the Aleutians West Census Area, AK by Theodore P. Bank II, an ethno-botanist. The human remains were stored at the University of Michigan Museum of Anthropology, were transferred in 1982 to the University of Alaska Museum in Fairbanks, AK, and were transferred again in 2002 to the Museum of the Aleutians in Unalaska, AK. The remains were transferred again prior to 2008 to the Alaska Region, USFWS in Anchorage, AK which were then finally transferred in 2017 to the University of Alaska Museum in Fairbanks, AK. These remains are currently split between the University of Alaska Museum in Fairbanks, AK and the Museum of the Aleutians in Unalaska, AK.
