Agricultural Marketing Service

Title: Reporting and Recordkeeping Requirements (United States Grain Standards Act and Agricultural Marketing Act of 1946).

OMB Control Number: 0581–0309.

Summary of Collection: Congress enacted the United States Grain Standards Acts (USGSA) and the Agricultural Marketing Act (AMA) to facilitate the marketing of grain, oilseeds, pulses, rice, and related commodities. These statutes establish standards and terms that accurately and consistently measure the quality of grain and related products, provide for uniform official inspection and weighing, provide regulatory and official service responsibilities, and furnish the framework for commodity quality improvement incentives to both domestic and foreign buyers. The Department of Agriculture (USDA) Agriculture Marketing Service's (AMS) Federal Grain Inspection Service (FGIS) establishes policies, guidelines, and regulations to carry out the objectives of the USGSA and the AMA. The USGSA, AMA, and related regulations can be found at the AMS website.

The USGSA, with few exceptions, requires that grain sold for export and grain sold by grade be officially certified. Official services are also provided, upon request, for grain sold domestically. The AMA authorizes similar inspection and weighing services, upon request, for rice, pulses, flour, corn meal, and certain other agricultural products. Conversely, the regulations issued under the USGSA and AMA require that FGIS collect specific information and keep certain records necessary to carry out requests for official services. Applicants for service must specify the kind and level of service desired, the identification of the product, the location, the amount, and other pertinent information in order that official personnel can efficiently respond to their needs.

Official services under the USGSA are provided by FGIS field offices and official agencies, which may be classified as delegated or designated agencies. Delegated agencies are State agencies delegated authority under the USGSA to provide official inspection and/or weighing services at export port locations in the State. Designated

agencies are State or local governmental agencies, or private agencies designated under the USGSA to provide official inspection and/or weighing services at locations other than export port locations. Official agencies provide services on behalf of FGIS and must comply with all regulations, procedures, and instructions in accordance with provisions established under the USGSA. FGIS oversees the performance of these agencies and provides technical guidance as needed.

Official services under the AMA are performed, upon request, on a fee basis for domestic and export shipments either by FGIS employees, individual contractors, or cooperators. Contractors are persons who enter into a contract with FGIS to perform specified inspection services. Cooperators are agencies or departments of the Federal government which have an interagency agreement or State agencies which have a reimbursable agreement with FGIS.

Need and Use of the Information: This information is used by USDA employees and State or private agencies authorized to perform official services under the USGSA or AMA.

USGSA and the AMA regulations require that producers, elevators operators, and/or merchandisers who obtain official inspection, testing, and weighing services keep records pertaining to the lot of grain or related commodity for a period of 3 years. In addition, the regulations issued under the USGSA and the AMA require that FGIS, State, and private personnel who provide official inspection, testing, and weighing services keep such records pertaining to the lot of grain or related commodity for a period of 5 years. This information is used for the purpose of investigating alleged violations of the USGSA and AMA.

Data is used for statistical purposes and the generation of reports within the agency and is shared within other USDA and government agencies as well as external stakeholders for statistical analysis.

Title: Measurement Service Record.

OMB Control Number: 0560-0260.

Expiration Date: 07/31/2025.

Type of Request: Extension.

Abstract: When a producer requests a measurement of acreage or production from FSA, the producer uses the form FSA-409 (Measurement Service Record) to make the request, which requires a measurement service fee to be paid to FSA. The form is manual. The form is prepared by the FSA County Office personnel when producers come into

the office and request a measurement service to be performed. The information is used to create a record of measurement service request and cost to the producer. Information that the producer is required to provide on this form is the farm serial number, program year, farm location, contact person, type of service request (acreage or production).

The producer must pay the cost of the service prior to the service being formed. The form serves as a record of the request, receipt of payment for the producer and documents the results of the service provided. The producer must sign the form to insure the accuracy of what is being requested, the person accepting the funds signs acknowledging receipt of funds and the person performing the service signs the form after completion of the service. The measurement policy and procedure are located in 7 CFR part 718.

There are no changes to the burden hours since the last OMB submission.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per responses hours multiplied by the estimated total annual responses.

Estimate of Annual Burden: Public reporting burden for the collection of information is estimated to average 15 minutes per response.

Respondents: Producers.

Estimated Number of Respondents: 135,000.

Estimated Number of Responses per Respondent: 1.

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information including the validity of the methodology and assumptions used;

(3) Evaluate the quality, utility, and clarity of the information technology; and

(4) Minimize the burden of the information collection on those who respond through the use of appropriate automated, electronic, mechanical, or other technological collection

techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses where provided, will be made a matter of public record. Comments will be summarized and included in the request for OMB approval of the information collection.
