#### **DEPARTMENT OF TRANSPORTATION**

### **Federal Railroad Administration**

[Docket No. FRA-2025-0011]

# Proposed Agency Information Collection Activities; Comment Request

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation (DOT).

**ACTION:** Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, FRA seeks approval of the Information Collection Request (ICR) summarized below. Before submitting this ICR to the Office of Management and Budget (OMB) for approval, FRA is soliciting public comment on specific aspects of the activities identified in the ICR.

**DATES:** Interested persons are invited to submit comments on or before May 20, 2025.

ADDRESSES: Written comments and recommendations for the proposed ICR should be submitted on www.regulations.gov to the docket, Docket No. FRA-2025-0011. All comments received will be posted without change to the docket, including any personal information provided. Please refer to the assigned OMB control number (2130-0544) in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent 30-day notice, made available to the public, and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Ms. Arlette Mussington, Information Collection Clearance Officer, at email: arlette.mussington@dot.gov or telephone: (571) 609–1285 or Ms. Joanne Swafford, Information Collection Clearance Officer, at email: joanne.swafford@dot.gov or telephone:

(757) 897–9908. SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60 days' notice to the public to allow comment on information collection activities before seeking OMB approval of the activities. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. Specifically, FRA invites interested parties to comment on the following ICR regarding: (1) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways for FRA to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

FRA believes that soliciting public comment may reduce the administrative and paperwork burdens associated with the collection of information that Federal regulations mandate. In summary, comments received will advance three objectives: (1) reduce reporting burdens; (2) organize information collection requirements in a "user-friendly" format to improve the use of such information; and (3) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

*Title:* Passenger Equipment Safety Standards.

OMB Control Number: 2130-0544.

Abstract: FRA's Passenger Equipment Safety Standards (49 CFR part 238) are used by FRA to promote passenger train safety by ensuring requirements are met for structural design and performance, fire safety, emergency systems, inspection, testing, and maintenance, and other provisions for the safe operation of railroad passenger equipment. For instance, the information collected from daily inspections is used to detect and correct equipment problems in order to prevent, to the extent that they can be prevented, collisions, derailments, and other occurrences involving railroad passenger equipment that cause injury or death to railroad employees, railroad passengers, or to the general public.

In this 60-day notice, FRA has adjusted the estimated paperwork burden. FRA's estimate of the burden hours under this ICR has increased from 95,946 hours to 95,947 hours.

Under §§ 238.133(c), En route failure safety briefing and 238.21(f), Comment on petitions, after further review, FRA determined that these requirements are not considered information collection under 5 CFR 1320.3(b) and (c). Therefore, the burden hour estimates associated with these requirements were removed.

A small increase in the estimated number of submissions under § 238.111, Pre-revenue service acceptance testing plans for Tier III resulted in the overall increase in burden of one (1) hour.

Type of Request: Extension without change (with changes in estimates) of a currently approved collection.

Affected Public: Businesses.

Form(s): N/A.

Respondent Universe: 35 Railroads. Frequency of Submission: On

occasion.

#### REPORTING BURDEN

CFR section	Respondent universe	Total annual responses	Average time per response	Total annual burden in hours	Wage rate <sup>1</sup>	Total cost equivalent
		(A)	(B)	(C) = A * B	(D)	(E) = C * D
229.47 Emergency brake valve:  —(a) through (b) "Emergency Brake Valve" shall be legibly stenciled or marked near each valve or shall be shown on an adjacent badge plate.	FRA anticipates zero	submissions for this reg	ulatory requirement ove	r the next three-y	ears.	
238.7 Waivers:  —(a) through (c) Petition for waiver of compliance under this section.	34 railroads	12	6 hours	72	\$89.13	\$6,417.36

BILLING CODE 4910-06-P

# DEPARTMENT OF THE TREASURY

#### **Internal Revenue Service**

# Proposed Collection; Comment Request for Publication 3319

**AGENCY:** Internal Revenue Service (IRS), Treasury.

**ACTION:** Notice and request for comments.

SUMMARY: The Internal Revenue Service (IRS), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on information collections, as required by the Paperwork Reduction Act of 1995. The IRS is soliciting comments concerning, Low-Income Taxpayer Clinics Grant Application Package and Guidelines.

**DATES:** Written comments should be received on or before May 20, 2025 to be assured of consideration.

ADDRESSES: Direct all written comments to Andres Garcia, Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224, or by email to *pra.comments@irs.gov*.

Include "OMB Number 1545–1648— Low-Income Taxpayer Clinics Grant Application Package and Guidelines" in the subject line of the message.

## FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of this collection should be directed to Molly Stasko, at (202) 317–6206, or at Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224, or through the internet at Molly.J.Stasko@irs.gov.

#### SUPPLEMENTARY INFORMATION:

Title: Low-Income Taxpayer Clinics Grant Application Package and Guidelines.

OMB Number: 1545–1648. Publication Number: 3319.

Abstract: Publication 3319 outlines requirements of the IRS Low-Income Taxpayer Clinics (LITC) program and provides instructions on how to apply for a LITC grant award. The IRS will review the information provided by applicants to determine whether to award grants for the Low-Income Taxpayer Clinics.

Current Actions: Form 13424—M has been revised and a new reporting Form 13424—R for the LITC Packet.

Form 13424–M incorporates some fields from the Form 13424 and eliminates a separate form. In lieu of non-competing continuation applicants

filling out a separate project abstract, they will instead check a box on the form 13424-M listed "Continuation" and it will show only the required fields for completion. If an applicant needs to report a major change to their program, they will be able to designate which fields need to be modified and those that don't by checking yes or no. This will eliminate the problems we had with the Project Abstract where the grantees would make mistakes or create errors. Form 13424–R will replace the 13424 A, B, C, K, N forms. We reduced the data points we are collecting significantly, and as a result, we anticipate that the time to complete will be reduced significantly.

Type of Review: Revision of a currently approved collection.

Affected Public: Not-for-profit institutions.

Estimated Number of Respondents: 130.

Estimated Time per Respondent: 43 hrs., 53 mins.

Estimated Total Annual Burden Hours: 9,338.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

<sup>&</sup>lt;sup>3</sup>Paragraph 238.111(b), Subsequent equipment orders have been removed from this submission. After further review, this is not a requirement specified under this section and therefore there is no associated burden.
